

## 6V 4R25 Super Heavy Duty Battery

Code: **PROB6V**

### Battery Characteristics

|                       |                            |
|-----------------------|----------------------------|
| IEC                   | 4R25                       |
| Chemical System       | Zinc Manganese Dry Battery |
| Battery               | Non-rechargeable           |
| Body                  | Plastic Casing             |
| Terminal              | Metal Spring               |
| Nominal Voltage       | 6V                         |
| Nominal Capacity      | 15.60HM, 24Hrs/Day         |
| Current               | 7Ah                        |
| Heavy Metal Content   | 0% Mercury, 0% Cadmium     |
| Operating Temperature | -30°C ~ 50°C               |
| Weight                | 540g                       |

### Dimensions (mm)
