

Sandy Nitrile Grip Gloves

Code: **AG-MAK**

These great gloves are designed to provide protection from tears, cuts, and punctures while performing tasks working alongside sharp objects and machinery. Their double coated nitrile palms and fingertips provide quality grip and protection from workplace hazards!

They offer excellent grip in dry and wet conditions alongside improved flexibility in the fingertips, providing you with enough dexterity to handle all equipment with ease.

Breathable and very comfortable, the elasticated wrist and tight fit ensure that the gloves always remain securely in place.

Made from tough and durable soft knitted fabric, our gloves are ideal for construction, engineering, maintenance, general handling and disposal operations.

- EN388:2016 4X43D
- Cut Level: D
- ASTM ANSI CUT LEVEL: A4
- Oil resistant
- Water repellent
- Touchscreen compatible
- Knitted elasticated cuff with breathable back of hand and fingers
