# OUR DELIVERY PROMISES

**GET IT ANYTIME!**

**Get it Anytime!**  
We can deliver 24 hours a day 7 days a week

Whether it's 2am in Manchester or Saturday evening in central London, we can deliver 24 hours a day, 7 days a week. Charges for this service apply so please discuss with our sales team who will get you the best price possible!

**GET IT NOW!**

**VIP Rapid 2 hour delivery to London & South East - call us for price**

Having teams on site without the equipment needed causes delays - we can deliver all standard catalogue lines with our rapid VIP 2 hour delivery. (If you require VIP delivery outside our area shown, just give us a call). Subject to availability.

**GET IT TODAY!**

**Order by 11am for Same Day Delivery to London & South East at no extra cost!**

Any orders received by 11am for delivery within our same day delivery area will be delivered same day at no extra cost. If you need same day delivery outside our area shown, no problem. Call our team to discuss.

**GET IT TOMORROW AM!**

**Order up to 7pm for next morning delivery nationwide at no extra cost!**

We are a flexible supplier. You can order from 6am to 7pm Monday to Friday. All orders placed by 7pm are delivered next day before midday as standard at no extra cost!\*

**GET IT IN IRELAND!**

**Get it in Ireland! Fast delivery available in Ireland from our Dublin depot**

We deliver your goods to you from our Dublin depot, too. If you require more details on the various services available please speak to our sales team today.

## 24 HOUR COLLECTION

**Collect from our UK depot**

London DA17 6AN

**Collect from our ROI depot**

Dublin D11 VX31

### TRUCK ICON DENOTES BULKY PRODUCT

Delivery charges and extended delivery times may apply. Call us for details.

**\*Here are our simple no-hassle delivery terms**

1. All services offered above are subject to our standard minimum order value of £150. A small order contribution of £8.95 will be added to any orders under £150 unless otherwise agreed with your account manager.
2. All services offered are for standard stock items. We endeavour to stock most items shown in this catalogue but from time to time some items may be out of stock and we will let you know at the time you place your order.
3. Order cutoff time for printed clothing orders is 3pm for next day delivery, and we cannot guarantee same day or VIP delivery on printed clothing. However we will endeavour to fulfil your requirements as quickly as we can.
4. Extra delivery charges may apply for deliveries to IOW, Isle Of Man, Channel Islands and parts of Ireland and Scotland.

Please note that printed and embroidered goods, and any goods ordered as a special are non-returnable under any circumstances and cannot be cancelled once the order has been processed. Standard goods from our catalogue can be returned providing goods are in perfect condition and in the original packaging, which will incur a minimum 15% restocking charge. Return requests must be submitted to our customer services department within 15 working days, and the goods returned to us within 20 working days. If you require us to collect the goods, a minimum collection charge of £15 will apply and will be calculated by location and volume.

All products offered in this catalogue are subject to our terms and conditions of sale. A copy of our terms and conditions is available on request. Due to constant product development we reserve the right to offer a product that differs from one represented in this catalogue. All product details including pricing are subject to change without prior notice. All prices exclude VAT where applicable.

# WELCOME

TO YOUR NEW 2020/21 - EDITION 11 CATALOGUE

We are delighted to present to you our brand new product guide for 2020/21. With new updated pages, hundreds of new products added, and an easy-to-use layout, this guide makes buying with CMT even more convenient for you.

All of this combined with our excellent service, highly competitive prices and FAST delivery makes CMT the best choice for all of your construction equipment and consumables.

We appreciate your business and look forward to hearing from you soon.

# ABOUT US

CMT Group was born in 2010 with a small, dedicated, passionate team and a condensed product range.

We have grown fast to become one of the largest independent construction equipment suppliers in the UK, leading the industry in exemplary customer care and satisfaction.

From day one, service has been the backbone of CMT's success.

Despite the fast-paced and demanding nature of the industry, our focus has never deviated from customer care first and foremost.

With a carefully developed supply-chain where we manufacture and distribute in-house, we guarantee our clients will have the products they need – fast!

**We believe in offering the right product, at the right price, to the right place, at the right time.**

# WHY CHOOSE US?

CMT is not just another one of those typical suppliers with good prices and average service. We're a team of committed people who really care and offer the same personal touch every time.

We know how important it is for orders to arrive on time, it matters to us too.

As a well-established construction equipment supplier, we understand the importance of a simple and easy buying process. We provide a seamless experience for new and existing customers.

Through our account services we provide ongoing help and support, tailored pricing and bespoke

invoicing solutions – all of which aim at providing a sleek, unrivalled user experience.

We work closely with governing bodies and accomplished manufacturers to promote best practice at all times. Our manufacturing facilities are always providing our customers with

# OUR PROMISE

## Super-fast Delivery

We don't live in a perfect world; unfortunately, there will always be situations where goods are urgently required at short notice. That's why we provide deliveries same-day and next-morning nationwide as standard. Our own vehicle fleet is ever-expanding, delivering the vast majority of our orders nationwide and offering full flexibility & traceability every step of the journey. No matter where you are, we're just around the corner!

## Competitive Prices

Many wholesalers like to act as a simple middleman, they let brands and manufacturers do the talking. Whilst we proudly maintain strong relationships with affiliate brands, we don't stop there. In the market today, some brands get away with charging ludicrous prices. When we know that our inhouse R&D and manufacturing departments can do a better job, that's what we do - we produce a product that yields a similar or higher quality but for a fraction of the price. We're responsible for the quality of the product and that's how we like it.

## Socially Responsible

At CMT we take our operations very seriously and ensure all aspects of our company are exceptional. Our social responsibility is no different. We continuously quality check supply-chains and re-evaluate our environmental footprint. We use circular supply-chain concepts to offer advice to customers about disposing of products. It would not be right to call ourselves successful without having a strong CSR programme.

what's needed at the time, under any circumstance. 'In demand' products can be easily upscaled, new product lines can be developed and alterations and bespoke solutions can be provided.

**Whatever demands are put on us, we deliver.**

# OUR ETHOS

Our ethos is simple – extensive, adaptable product lines at competitive prices, while providing unbeatable service.

CMT's innovative business model was a breakthrough to an industry tired of long lead times and unpredictable deliveries. Our commitment to unrivalled service - on time every time - was a refreshing disruption to the market.

We like to put ourselves in the customer's shoes. We're openminded to new ways of working, we constantly push for feedback to better our service and we're not scared to take bold decisions where necessary.

**Our goal is to make our clients' lives simpler and easier.**

# QUALITY & COMPLIANCE YOU CAN TRUST

## At CMT we set the bar high.

Product quality is paramount. All products must comply with latest regulations and exceed industry best practice - it's imperative. As active members of the BSIF Registered Safety Supplier Scheme, we hold to strict guidelines that ensure high quality and compliance. We don't regard this as optional.

BSIF hold regular audits to ensure there's no compromise on quality or legal standards. As well as this, we manage product approval and certification in-house, giving us total control. Our experienced compliance team ensure all products stay compliant and up to date with current legislation, and can prove this for every item. Where relevant, this includes specification sheets, declarations of conformity and all associated documents.

## OUR NATIONWIDE DELIVERY FLEET

Our own vehicle fleet is constantly expanding, now delivering the vast majority of our orders nationwide and offering full flexibility & traceability every step of the journey. As we've expanded our network, we understand that it is essential that we deliver in a sustainable manner. Our ongoing transition to electric vehicles is a key part of our sustainability plan.

**We ship in bulk and consolidate deliveries whenever possible using specialist computer programmes for route mapping to not only ensure improved delivery times, but reduce our carbon emissions to the minimum.**

Our delivery methods are automatically calculated within our despatch software, and the processes utilised include the use of picking zones, twenty-four hour operations and staggered despatch times, allowing us to efficiently despatch thousands of orders a day.

# ARMED FORCES COVENANT

CMT have committed to honour the Armed Forces Covenant and support the Armed Forces Community. The first duty of Government is the defence of the realm. Our Armed Forces fulfil that responsibility, sacrificing some civilian freedoms, facing danger and, sometimes, suffering serious injury or death as a result of their duty. In return, the whole nation has a moral obligation to the members of the Naval Service, the Army and the Royal Air Force, together with their families. They deserve our respect and support, and fair treatment.

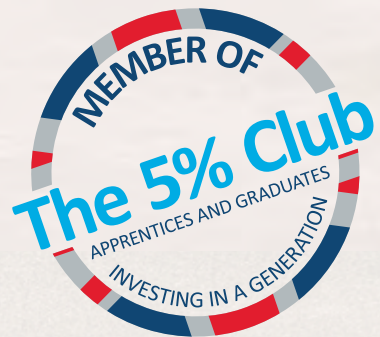

We recognise the value serving personnel, reservists, veterans and military families bring to our business and will strive to support the employment of veterans by seeking to uphold the principles of the Armed Forces Covenant.

## THE 5% CLUB

As a company operating in the UK, we are committed to this country's growth agenda. Against the current backdrop, we are aware of the chronic skills shortage and youth unemployment that the UK faces and acknowledge the importance of developing our people as both a business and social imperative. We aim to play a role in transforming the fortunes of young, talented people in the UK to ensure that the UK retains its reputation for innovation. As a member of The 5% Club, we are pledging to work towards having a minimum 5% of our UK workforce enrolled on formalised apprentice, sponsored student and/or graduate development schemes within the next 5 years.

We believe that by joining The 5% Club we will play a role in Britain's long term prosperity, benefitting both society and Britain's place in the world.

# RE: COVID-19 CRISIS

**We trust you are keeping safe during this difficult time. We wanted to provide an update on how COVID-19 has affected us, and the actions we've taken to ensure the service you receive is impeccable.**

Although procurement of some items has been extremely challenging in recent months, CMT have leveraged our supply network to find alternative high-quality sources where necessary and ensure a consistent and reliable supply to our clients. This has affected costs on certain items but, rest assured, we have and will continue to absorb these increases wherever possible. This means you can expect normal stock levels for all items. Our sales team will keep you personally advised at every point if any further global spikes in demand are experienced that may have an effect on supply.

Despite the economic difficulties, CMT are committed to protecting our workforce, meaning continuity for your team when contacting CMT. This has carried increased costs, including investments in hardware and systems to enable employees to work from home, to ensure service levels are maintained.

We have also significantly expanded our transport team and the area covered by our ever-expanding fleet. This means a further increased service level for the majority of the country and greater flexibility and traceability. This large investment has helped protect your service from negative impacts of third-party couriers, who have been affected by the crisis. As a result, we have been forced to increase our standard delivery charge to £12.95.

Despite international shortages, CMT are committed to playing our part to help and support our community. We've made over 50 donations of essential PPE to local NHS trusts, charities and care homes.

CMT remain in a financially strong position despite the current economic difficulties. Our future as your supply partner is secure. In the current climate, it's easy to forget about our obligations to protect the planet. However, we are continuing to stick to our resolve in ongoing environmental commitments and continuously work to reduce our CO2 footprint.

CMT remain committed to providing the highest level of service to you and your team. We trust you stay safe and well as we this recover from this crisis together and emerge stronger.

Take care, and speak soon!

**TEAM CMT**

# CMT are the **first UK** manufacturer to produce certified **Type II, IIR and 3-Ply** face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

**Type II, IIR and 3-Ply face masks are available in a range of pack sizes and packaging options, including own branding**

Our focus is on helping you in guaranteeing a consistent, secure supply of UK manufactured masks at more competitive rates than offshore-sourced products.

**Benefits of ordering through an accredited UK supplier rather than importing:**

- Removes any risk of inconsistent supply
- Save weeks of time on delivery
- Deal with a professional UK team
- Avoid overstocking with reduced MOQs
- Supports UK manufacturing
- Avoid exchange rate fluctuations
- Supports our economy

# OTEC DIAMOND BLADES

*a cut above the rest*

Since 1992 OTEC diamond blades have been leading the field in the supply of professional diamond tools to the construction and civil engineering industry, and we're proud to be the number one brand in the marketplace.

OTEC diamond blades have been proven throughout the last 28 years to provide high performance and durability, with an excellent track record of safety. These three key features are the reason OTEC are the approved diamond tool brand to so many of the UK's biggest contractors.

## Blow Out Pump Hole Cleaner

- Ideal for cleaning dust from drilled holes prior to applying bonded anchors for installing mechanical anchors
- Hole cleaning is necessary for correct loads
- Manual, easy to use
- Serial application
- Approved for use in:
  - Cracked concrete
  - Non-cracked concrete C20/25-C50/60
  - Aerated concrete block
  - Hollow Sand-lime brick
  - Solid Sand-lime brick
  - Hollow brick
  - Hollow lightweight concrete block

# HOLE SAWS & ARBORS

## Bi-Metal Hole Saws

- Features a smooth and fast cutting action
- Aggressive material penetration and swarf clearance
- 38mm cutting depth
- Will cut thin and thick gauge materials
- Suitable for cutting steel, aluminium, sheet metal, metal/mild metal, non-ferrous metals, cast iron, hard/soft wood and PVC

### Fine Tooth Wood Multitool Blades

- Fine tooth timber cutting blade, ideal for general purpose timber cutting
- The Fine tooth wood blades are a firm favourite for detailed cutting in timber
- The smaller tooth design still gives a fast cut, but a neater finish, and a very controlled cut when precision is needed
- Available in packs of 10

Code

<b>MT32FT10</b>	32mm Fine Tooth Sawblade - Pack of 10	5
<b>MT63FT10</b>	63mm Fine Tooth Sawblade - Pack of 10	5

# ALL STEEL TOOLS

Our best-selling range of tubular steel shafted solid socket shovels are designed for the heavier usage involved on building sites. We rotary weld our contoured steel handles into the body of the shovel socket for extra strength and rigidity - thus producing a very robust yet lightweight tool for digging.

# ASH HANDLED TOOLS

Most wooden shafted tools are available with 'T' or galvanised steel, heavy duty 'MYD' grips. We only use best quality, specially selected slow growing, straight grained hardwoods. The 'flower' of the grain is on the side of the handle for greater strength and flexibility - the strong, straight grain running from front to back. The MYD is ergonomically designed to comfortably fit the largest of hands.

# INSULATED TOOLS

We provide a comprehensive range of insulated tools to suit all your needs, whether it's shovelling out, breaking ground, laying pipes or backfilling trenches. Each tool is individually flash tested to 10,000V and fully compliant to pass BS8020: 2011. With over 150 cable strikes reported a day, our insulated tools are essential to keep your workers safe in risk areas.

# POLYFIBRE TOOLS

Our PolyFibre range of solid forged Contractors Tools will not rot, shrink, dry out or become more susceptible to breakage through periods of inactivity. They offer the worker a high degree of fibreglass strength along with the comfort of a profile moulded PYD hand grip. Injection moulded polypropylene sheathing totally encloses the polyester resin fibreglass core ensuring reliability and virtually eliminating the danger of handle breakage and potential injury.

TETHERING YOUR TOOLS

# ON SITE, SAFETY WHEN WORKING AT HEIGHT IS PARAMOUNT

Dropped tools present a danger at almost any height, regardless of the tool weight and this ingenious and hassle-free tethering system significantly decreases the chance of tools being dropped. **It's simple:** follow the three steps and select the correct product for your task from each step to complete your unique tethering system.

## 1

### COMMON TETHER POINTS

Not all tools are created tether-ready. It's as easy as creating a secure attachment point on the tool you are using and ensuring the tool weight does not exceed the maximum allowed for the tether point. Go to pages 110-111

## 2

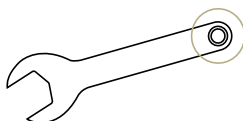

### TOOL LANYARDS

Choosing the best tool lanyard for the job depending on the task and weight of the tool ensures safety first in your working environment. Go to pages 112-113

## 3

### ANCHOR POINTS

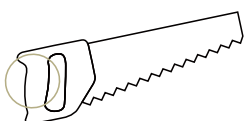

Every tool lanyard needs an anchor. Whether it's on your wrist or belt, make sure it's secure with one of these weight rated anchors. Suggested maximum tool weights for wrist anchor are 1.5kg and for belt anchor 2.5kg. Go to page 114

Captive Holes

Holes built into the body of the tool

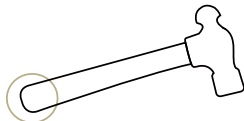

- Instant Tether System
- Tether Loop
- Tether Ring
- 360° D-Ring Loop
- 8 Ring Tether

Captive Handles

Closed loop built into the structure of the tool

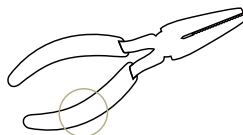

- D-ring loop,
- Triple Lock

Open-Ended Handles

Open at one end with no captive holes

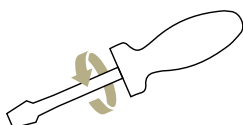

- 360° Sleeve Adaptor
- Instant Tether System
- D-ring
- Tether Tape

Moulded Grips

Open ended shaped handles found on small tools

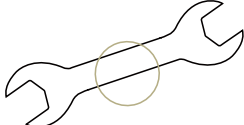

- 360° Sleeve Adaptor
- Instant Tether System
- D-ring
- Tether Tape

Rotating Holes

Tools that require rotation to perform their function

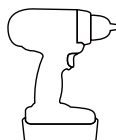

- 360° Sleeve Adaptor
- Instant Tether System
- 8 Ring Tether

Rotating Tools

Tool performed with a tapered mid-section

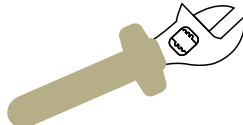

- Tether Ring
- Instant Tether System

Waisting Tools

Large tools with a built-in waist or thin mid section

- Drill Boot Tether
- Tether Choke
- Instant Tether System
- Tether loop
- Tether Ring

Insulated Tools

Non-conducted tools for maintenance & electrical work

- Instant Tether System
- Non conductive D-ring
- Tether tape

NLG GO Bungee Tool Lanyard, Twin  
CMT Code: **NLG101519**  
(See page 113)

## Tether any tool in 3 simple steps

### Tether Point

Create a secure attachment point on the tool.

### Tool Lanyard

Choose the best tool lanyard for your task.

### Anchor Point

Select between a wristband, belt, harness or fixed point.

### Video Guide

Watch how to install every tether point:

[neverletgo.com/guide](https://neverletgo.com/guide)

# 1: COMMON TETHER POINTS

## Tether Loop

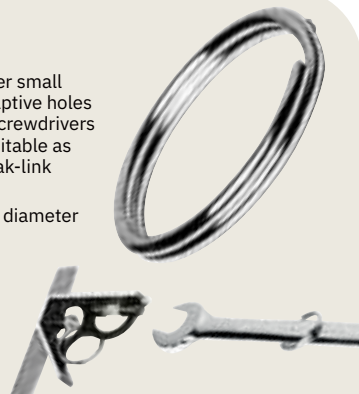

- Aircraft-grade steel core

Code		
NLG101380	120mm	10
NLG101381	150mm	10

## Tether Ring

- Quickly tether small tools with captive holes (spanners, screwdrivers etc.), also suitable as an inline weak-link connector
- 25 or 38mm diameter

Code		
NLG101273	25mm	10
NLG101275	38mm	10

## Tether Choke

- Heavy duty, highly durable webbing

Original

Single arm

Twin arm

Code		
NLG101367	Original	10
NLG101368	Single arm	10
NLG101369	Twin arm	10

## 360° D-Ring Loop

- Provides direct tool attachment by choking / looping through drilled or preformed holes and captive handles, toggle allows easy and secure fastening
- D-Ring attachment point, cord length 18cm, total length 28cm

Code		
NLG101363		10

## Tape Measure Tether

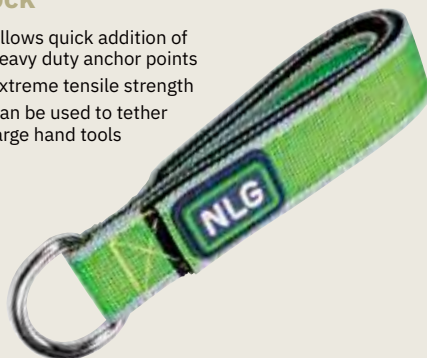

- For standard & XL sizes

Code		
NLG101350		1

## Triple Lock

- Allows quick addition of heavy duty anchor points
- Extreme tensile strength
- Can be used to tether large hand tools

Code		
NLG101454		10

1: COMMON TETHER POINTS

8 Ring Tether

- Hard wearing
- Versatile & easy to use

Code		
NLG101426	Medium	5
NLG101427	Large	5

Drill Boot Tether

- Drill not included

Code		
NLG101334	Small	1
NLG101333	Large	1

Instant Tether System

- Self-fusing Tether Tape does not need heat to apply and features fibreglass reinforcement mesh for improved strength & durability

Tether Tape

- 2.8m roll
- 1 roll tethers up to 10 tools

D-Ring Tool Tethers

Code		
NLG101355	Tether Tape	1
Code		
NLG101361	Small D-Ring	10
NLG101362	Large D-Ring	10
NLG101375	Non-Conductive D-Ring	10

## 2: TOOL LANYARDS

### Helmet Lanyard

- 40 x 2cm
- Secure & comfortable
- Helmet not included
- For use with all hard helmets. See pages 320-323

Code

**NLG101358**

5

### Medium Duty Bungee Lanyard

- Extends 80 to 120cm
- Strong & versatile

Code

**NLG101372**

5

### Heavy Duty Bungee Lanyard

- Extends 80 to 130cm
- Heavy duty

Code

**NLG101373**

5

### Heavy Duty Webbing Lanyard

- 190cm
- Super heavy duty

Code

**NLG101374**

5

### Retractable Lanyard

- Extends 30 to 140cm
- With locking mechanism

Code

**NLG101389**

1

### Coiled Lanyard

- Extends 10 to 170cm
- Compact & anti-tangle

Code

**NLG101370**

5

## 2: TOOL LANYARDS

### Mini Coiled Lanyard

- Extends 30 to 95cm
- Compact & lightweight for small tools & equipment

Code

NLG101371

10

### Lightweight Coiled Lanyard

- Extends 48 to 180cm

Code

NLG101493

5

### Short Coiled Lanyard

- Extends 4 to 70cm
- Non-conductive

Code

NLG101376

10

### Short Coiled Lanyard

- Extends 4 to 70cm
- With 360° Quick Clips

Code

NLG101364

10

### GO Tool Lanyard

- Extends 70 to 120cm
- Lightweight
- Entry level

Code

NLG101518

5

### GO Bungee Tool Lanyard

- Extends 70 to 120cm
- Lightweight
- Twin carabiner

Code

NLG101519

5

### 3: ANCHOR POINTS

#### Wrist Band

- Suggested maximum tool weight when anchored to wrist: 1.5kg
- Comfortable & adjustable

Code

NLG101365

10

#### Belt Loop

- Suggested maximum tool weight when anchored to belt: 2.5kg
- Fits all standard belts

Code

NLG101366

10

#### Work Belt

- Comfortable & adjustable

Code

NLG101420

1

#### Heavy Duty Choke Anchor

- For fixed anchor point

Code

NLG101494

10

### Linesman Bag

- Heavy duty
- Reinforced mesh construction
- Waterproof & rot-proof

Code

**NLG101421**

1

### Aero™ Pouch

- Ideal for fixings & small drill bits
- Unique design

Code

**NLG101400**

1

### Tablet Case

- Fits all types of common tablets
- Touch sensitive

Code

**NLG101384**

1

### Phone Case

- Fits all types of common smart phones
- Touch sensitive

Code

**NLG101383**

1

### Radio Holder

- Fits all types of common radio

Code

**NLG101418**

10

LEARNING HUB BOARD

**NLG Tool Tethering Learning Hub**

- A high impact training and awareness tool to remind operators to tether up and a reference point on how they can do it
- A visual way to represent over 20 physical products

Code

# CMT are the **first UK** manufacturer to produce certified **Type II, IIR and 3-Ply** face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

**Type II, IIR and 3-Ply face masks are available in a range of pack sizes and packaging options, including own branding**

Our focus is on helping you in guaranteeing a consistent, secure supply of UK manufactured masks at more competitive rates than offshore-sourced products.

**Benefits of ordering through an accredited UK supplier rather than importing:**

- Removes any risk of inconsistent supply
- Save weeks of time on delivery
- Deal with a professional UK team
- Avoid overstocking with reduced MOQs
- Supports UK manufacturing
- Avoid exchange rate fluctuations
- Supports our economy

# green rhino®

Smart Pollution Prevention Products

## EnviroPad®

### The ultimate product for drips and spills

The EnviroPad® captures and solidifies oil, diesel and other hydrocarbons. Unlike typical products which work like a sponge and are prone to leak, EnviroPad® uses a proprietary blend of polymers which immediately starts to turn the spill solid, permanently capturing it within the filtration membrane. This eliminates unwanted leaks, reduces waste and importantly saves times and money.

- Best oil retention rates on the market, up to 44 litres
- Unrivalled cost per litre compared to the marketplace
- Usage instructions printed on the EnviroPad®
- Clean, safe, reliable pollution prevention
- 5 different sizes available

**EnviroPad®**  
**L40 Large**  
 Up to 44.3L

## EnviroPad Oil Retention Mat

- Turns oil into rubber for highly efficient spill containment
- Solidifies the spill so contaminants cannot leak out
- Clean, safe, reliable pollution prevention
- Avoid fines and prosecution from environmental regulators

Code

## SOUND CONTROL SOLUTIONS

Hushtec Global was born with a passion of bringing to market innovative solutions that protect people, the environment and increase health and safety measures across a wide range of industries.

Hushtec are a worldwide practical safety solutions provider that were formed as a result of a driven family business committed to continuous development and improvement.

## HUSHTEC BARRIERS

Performance Series  
Barrier

NEW

We have proven through extensive trials, tests & re-designs that our panels are incredibly durable. We have combined the most enduring material properties to provide a weatherproof and UV-resistant acoustic panel that will withstand the toughest conditions with minimal deteriorations.

- Noise absorption of up to 75%
- Custom size panels available
- Full printed personalisation available to enhance your company brand and environmental image
- Quick and easy to erect
- Can also control the spread of dust and fumes
- Weather and UV Resistant

Code

HUSHP13

## Phone Box

NEW

The new Hushbox phone station provides a quiet environment for site personnel to make phone calls. In the event of an emergency, conversations can be heard clearly with no background noise interference, making response times quicker and potentially saving lives.

- Quick and easy to install - recommended positioning is every 30 - 40m apart
- Lightweight and relocatable
- Ideal document station
- Reflective strip and fluoro colours available for increased site awareness
- Width: 750mm  
Height: 750mm  
Depth: 750mm
- Custom branding and sizing available

## HUSHTEC ROCK BREAKER ATTACHMENT

### Rock Breaker Attachment

The all new Hushtec Rock Breaker noise control attachment was developed to mitigate the hammer noise effects generated within the breaker by controlling and absorbing noise at source. Through considerable research, the conclusion was made that a significant majority of the noise was generated within the breaker unit itself rather than the pick hitting the concrete.

**NEW**

- Custom manufactured to suit various attachments ranging from 3 - 100T in size
- Fire Retardant & Water Resistant
- Flexible, strong with optional cut-outs to accommodate for hydraulic hose's/ grease knuckle points
- Ripstop PVC coating for additional strength
- 100mm Velcro overlaps to ensure 100% noise barrier and minimal noise leakage points

Code

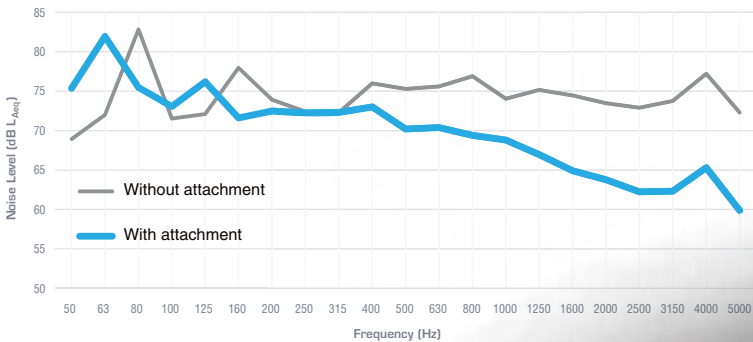

**HUSHRB**

## NOISE TESTING

### THIRD OCTAVE BAND SPECTRA FOR MEASUREMENTS

### MEASUREMENT RESULTS

Rock Breaker Attachment	Duration (m:ss)	Noise Level
On	6:25	78 dB LAeq
Off	7:35	86 dB LAeq

## INTRODUCING AQUAPAX WATER

Sealed and protected from light and air, in wholly recyclable, safely reusable, sustainably produced, non-leaching paper cartons, means Aquapax elevates itself above the ongoing war on plastic: it makes Aquapax unique in the market.

Most of our wholly recyclable carton material is paperboard made from trees, sourced from sustainable FSC Certified forests. Our 500ml cap is made from sugar cane, a natural plant that just grows back!

Multi-award winning Aquapax is also one of the purest waters in the world and the ever-increasing consumer demand for convenient, pure, additive-free, portable drinking water, is clear! Hence our passion for Aquapax.

## ONE OF THE PUREST WATERS IN THE WORLD.

**Aquapax Spring Water Cartons**

- The recyclable alternative to plastic bottles
- Packs of 12
- 500ml

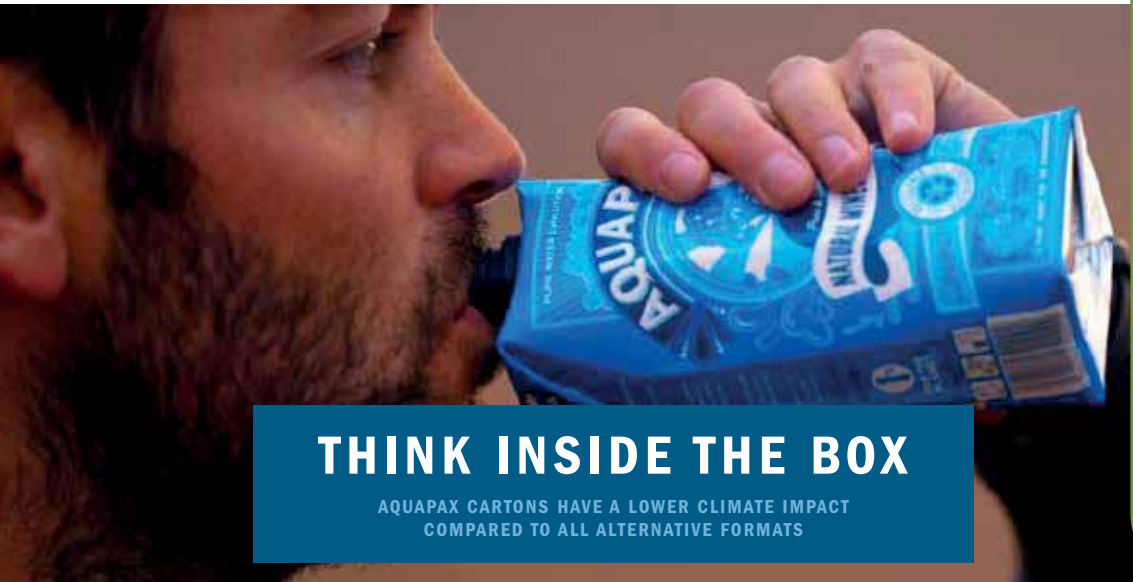

**NEW**

Code

**THINK INSIDE THE BOX**

AQUAPAX CARTONS HAVE A LOWER CLIMATE IMPACT COMPARED TO ALL ALTERNATIVE FORMATS

**A**

**Sustainable**

AQUAPAX carton strength is from renewable FSC timber sources

**B**

**Plant Based**

By weight, AQUAPAX contains at least 62% plant-based material

**C**

**Recyclable**

The whole AQUAPAX carton can be recycled into useful new products

# YOUR BEST FIGHTING CHANCE

Are you prepared for Cardiac Emergencies?

Lifesaving, **Pure and Simple**

**HEARTSINE® DEFIBRILLATORS**  
The perfect blend of Quality and Price

## The best things in life are often simple.

That's true for the best lifesaving technology as well. The simple truth is that SCA strikes from 7 million people a year worldwide with no warning. There's little time to react and even less time to think.

So your AED solution must be close at hand, reliable and effective.

### Defibrillators Save Precious Minutes

Because every second counts

Every minute that passes without defibrillation reduces survival rate by 7–10%  
**Increase The Chance**

## DID YOU KNOW?

13% of workplace fatalities are from Sudden Cardiac Arrest (SCA)

# HEARTSINE DEFIBRILLATOR PRICING

**CLINICAL WASTE & SHARPS DISPOSAL**

**AEROHAZARD® SHARPS & MEDICAL WASTE PRODUCTS**

A wide range of waste disposal containers which are designed to meet user's demands for strength, simplicity & value. This range offers outstanding protection against penetrating sharps & leaking fluids due to its rigid polypropylene construction & wall thickness. Assembly is fast & permanent; simply press the lid around the rim of the container until it snaps into place. A simple closure mechanism allows single handed disposal & most items have a temporary & permanent closure feature.

A boot for all temperatures including thermal protection down to -40°C.

### CRUSH PROTECTION

Fibre glass non-metallic toe cap: 200J EN 12568

### RESISTANT

Resistant to fuel oil and hydrocarbons.

### ANTI-FATIGUE

Designed for all day wear; supports natural posture and spinal alignment, reducing wear and tear on lumbar vertebrae.

### STABILITY & ANTI-SLIP

Excellent stability on rough/uneven ground. Superb grip on typically hazardous surfaces such as wet rock and wooden sleepers.

### PIERCE PROTECTION

Flexible Kevlar non-metallic penetration resistant midsole: 1100N EN 12568

HAND PROTECTION

# GLOVE TYPE GUIDE

## European Standards

Implies that the glove comply with the basic requirements laid down by the EC Regulation: Personal Protection Equipment.

### Simple Design (Category I)

For areas of 'minimal risks' where the effects of not wearing a glove are easily reversible or superficial. Such products are self-certified.

### Intermediate Design (Category II)

For areas of 'specific risks' i.e. mechanical risks. Such products would have been EC type tested against European test methods and certified by a notified body.

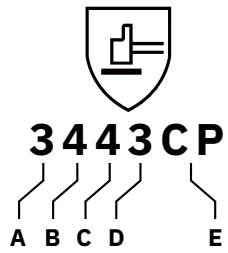

### Complex Design (Category III)

For areas/application that can seriously or irreversibly harm the health. Such products, in addition to the CE type test, will also have to be either produced under an approved quality system or be tested on an annual basis

## CE Safety Standard Symbols - What to look out for

Each glove has its own individual rating for each standard it qualifies for. Against each product there will be standards symbols where appropriate, clearly displaying the particular safety standards that the glove complies with. This will help you quickly see what you need to know about the glove, helping you shop more efficiently.

### What the numbers represent

### Mechanical Hazards: EN388

- A** - Abrasion resistance **0-4**
- B** - Circular blade-cut resistance **0-5**
- C** - Tear resistance **0-4**
- D** - Puncture resistance **0-4**
- E** - Straight blade cut (TDM) resistance A-F (f)  
Impact resistance P if passes

### Performance Level

-  **EN388**  
**PROTECTIVE AGAINST MECHANICAL RISKS**
-  **EN374-2**  
**BIOHAZARD RESISTANT**
-  **EN374-3**  
**CHEMICAL RESISTANT**
-  **EN407:2004**  
**THERMAL HAZARD PROTECTION**
-  **ISO 10819**  
**MECHANICAL VIBRATION & SHOCK**
-  **EUROPEAN CONFORMITY**

An "X" can be shown in place of any of the first 5 digits underneath the pictogram, where the test was either not carried out, not required or not suitable.

## CUT RESISTANT

Protects hands from sharp tools or objects

## PUNCTURE RESISTANT

Protection against getting pierced or pricked

## COLD PROTECTION

Protects hands when handling cold objects

## DISPOSABLE

Protection against cross contamination

## MECHANICS

Protects hands in general assembly environment

## ANTI-IMPACT

Protection against impact damage

## TOUCH-SCREEN

Enables you to use a touch screen device

## CHEMICAL RESISTANT

Protection from harmful chemicals/substances

## GENERAL PURPOSE

Protects hands when performing general tasks

## ELECTRICAL PROTECTION

Protects the wearer from electric shocks

## HEAT/FLAMES/ARC PROTECTION

Protection when handling hot objects

## ANTI-VIBRATION

Protects hands from vibration

## WATER RESISTANT

Protection in wet conditions

### Changes to EC standard EN 388

During 2016 a new version of EN 388, Protection against Mechanical Hazards, was published. It allows products offering higher classifications of cut levels to be identified.

### What has changed

Any sample tested for cut resistance using the existing coup method, which blunts the blade used in the test, will have to be additionally tested using the ISO cut method. There will be 6 cut levels defined on the ISO cut method. Levels A, B and C are new. Level D is of a different value to the level previously quoted as 4. Level E is the same value previously quoted as level 5. Level F is also new and is the highest cut resistance value.

Level A	Level B	Level C	Level D	Level E	Level F
2	5	10	15	22	30

Back of hand protection (impact protection testing) is now included.

**3** - Means the sample achieved level 3 for abrasion

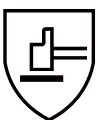

**4** - Means the sample achieved level 4 for coup cut

**4** - Means the sample achieved level 4 for tear

**3** - Means the sample achieved level 3 puncture

**C** - Means the sample achieved level C for ISO cut which was tested due to blade blunting during the coup test

**P** - Means the sample passes requirements for impact protection

# SONIS™ EAR DEFENDERS PEAK AT AN UNBEATEN 37 SNR

The Sonis™ range has been stylishly designed with a traffic light colour code for easy identification. Materials have been chosen for both performance and comfort for extended periods of use.

## ✓ PERFORMANCE

The Sonis™ range of ear defenders have been designed by the JSP R&D team. Working with a leading UK acoustic engineering research facility they have developed an ear defender range that peaks at an unbeaten 37 SNR.

## ✓ COMFORT

The over-moulded headband has a built in comfort area with ventilation. The headband force and the cushion surface area work together to provide optimum cushion pressure and comfort.

## ✓ CUSTOMISATION

Sonis™ cups can be coloured to meet a corporate identity. They can also be printed with a company logo for improved brand recognition and to discourage theft. MOQ's apply.

## ✓ ADJUSTABLE STEEL ARMS

To facilitate even distribution of pressure the wearer can tilt and adjust the position of the earcup for optimum comfort and fit.

## ✓ HYGIENIC

The headband is manufactured from TPE, making it easy to wipe clean. The sealing rings are easy to replace. Hygiene kits are available for each model.

## ✓ EXTRA VISIBILITY

The Sonis™ range is available with extra visibility cups and a reflective head band for added low light protection.

## RESPIRATORY EQUIPMENT

**IDENTIFY THE HAZARDS** - dust, metal fume, gas, vapour.

**ASSESS THE HAZARDS** - measure the hazard level/other protection - skin & eye.

**SELECT THE RESPIRATOR** - disposable, half mask, full face, powdered airline.

### HAZARDS:

#### 1) DUST:

Formed by the breaking down of solid materials, the smaller the dust particles the greater the hazard presents.

#### 2) MISTS:

Formed by the processes that involve atomisation (such as spraying), mists consist of tiny droplets.

#### 3) FUMES:

Formed by the vapourisation of a solid material by the application of extreme heat. Extremely fine particles are created as the vapour cools and condenses.

#### 4) VAPOURS:

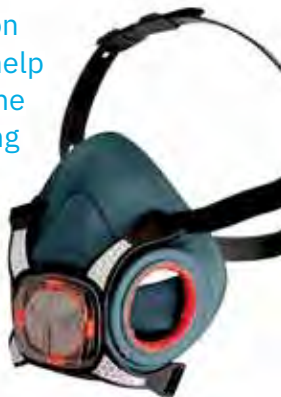

A gaseous state formed by evaporation from substances that are normally either solid or liquid at room temperature. A fume may form as vapour condenses.

#### 5) GASES:

An air-like substance at room temperature that has the ability to diffuse and spread quickly and travel far.

## TAKE CARE AND PROTECT YOUR AIR

Read the information on this page to help you choose the right breathing protection.

### EUROPEAN STANDARDS

Our respirators are tested to the relevant European Standards. All respirators carry the CE mark plus the European Standard and performance category markings:

**EN149** – Filtering facepiece and particulate respirators

**EN405** – Valved filtering half mask respirators for gases and/or particulates

**EN140** – Half mask facepieces

**EN136** – Full facepieces

**EN137** – Self-contained open-circuit compressed air breathing apparatus

**EN143** – Particulate filters

**EN146** – Powered Respirators – Hoods & Helmets

**EN147** – Powered – Full Face Masks

**EN270** – Heavy Duty Supplied Air

**EN402** – Escape Apparatus. SCBA with full face mask or mouthpiece assembly

**EN529** – Respiratory selection, use and care

**EN1146** – Compressed air escape apparatus with hood

**EN1835** – Light Duty Supplied Air

**EN12941** – Powered Respirators – Hoods and Helmets

**EN12942** – Powered Respirator Full Face Masks

**EN14387** – Gas & vapour filters

Due to current global shortages, prices and availability on these products may be affected. Please contact our sales team to discuss your requirements.

# CMT are the **first UK** manufacturer to produce certified **Type II, IIR and 3-Ply** face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

**Type II, IIR and 3-Ply face masks are available in a range of pack sizes and packaging options, including own branding**

Our focus is on helping you in guaranteeing a consistent, secure supply of UK manufactured masks at more competitive rates than offshore-sourced products.

**Benefits of ordering through an accredited UK supplier rather than importing:**

- Removes any risk of inconsistent supply
- Save weeks of time on delivery
- Deal with a professional UK team
- Avoid overstocking with reduced MOQs
- Supports UK manufacturing
- Avoid exchange rate fluctuations
- Supports our economy

# Specification for Type II & IIR

These high-quality products are independently tested and accredited by ISO 17025 accredited laboratories, in line with all elements of the following international standards. Test reports and other documentation are available on request.

<b>Full product name:</b>	Disposable Non-Sterile Medical Face Masks Type IIR 3-Ply
<b>Product size:</b>	180mm x 90mm (ear loops = 180mm)
<b>Product Weight:</b>	2 grams
<b>Product Material:</b>	Inner layer: White spunbonded non-woven polypropylene 25g/sqm
<b>Outer layer:</b>	Blue spunbonded non-woven polypropylene 25g/sqm
<b>Filter media:</b>	Meltblown white non-woven polypropylene 25g/sqm, 0.35mm thickness
<b>Elastic strap:</b>	2mm thick white elastic – latex free
<b>Nose piece:</b>	3mm thick metal wire encased in white plastic, 165mm length
<b>Product Performance:</b>	EN14683:2019 Bacterial Filtration Efficiency (BFE) $\geq$ 99% Differential Pressure $\leq$ 10.2 Pa/cm <sup>2</sup> Synthetic Blood Resistance: PASS (2R only) Microbial Contamination/Bioburden $\leq$ 23 C.F.U./g
<b>Product Colour:</b>	Blue / White
<b>Packaging Size:</b>	70mm x 200mm x 100mm
<b>Packaging Units:</b>	5, 10 or 50 per inner box
<b>Manufacturer:</b>	CMT Equipment LTD – Trident Works, Mulberry Way, Belvedere, London, DA17 6AN
<b>Storage Conditions:</b>	Store in a well-ventilated room where the relative humidity does not exceed 80%. Avoid high temperatures, keep away from fire and flammable materials.
<b>Shelf Life:</b>	5 years in original packaging
<b>Handling:</b>	Keep in original packaging until use – do not reuse. Replace when damp or damaged
<b>Conformities:</b>	EN 14683:2019: CE Marked; Registered with MHRA. Produced in accordance with MDR 2017/745. Class I medical device (non-sterile)
<b>Dermatological Tolerance:</b>	No known intolerance, does not contain latex
<b>Conditions:</b>	Non-sterile

# PPE Recycling

Secure  
Sustainable  
Solutions

CMT has teamed up with one of the UK's leading secure destruction specialists to provide a nationwide service for the secure destruction and recycling of all types of PPE. As well as improving your carbon footprint and protecting the environment, this service can also be used as a secure way to protect your brand. All materials can be collected from your site and taken to a secure facility where it is destroyed by shredding and recycled.

**1** Order your recycling station with one of our sales team using code: **SBRP**

**3** Choose either a 1, 2 or 4 week collection time frame and we will collect the bin and take the items to a secure recycling facility

**2** We deliver your recycling point to your chosen delivery address.

**4** We will provide you with a Certificate of Destruction if required, giving you peace of mind

Footwear

Hearing Protection

Eyewear

Gloves

Helmets

Respiratory Equipment

Workwear

Working in conjunction with our Charity Partners some of the unbranded garments can be sent out to 3rd world countries in support of less fortunate communities

CMT embraces the circular economy concept, whereby we keep resources in use for as long as possible, extract the maximum value from them whilst in use, then recover and regenerate products and materials at the end of each service life.

## FACE FIT TESTING

Qualitative Fit Testing can be used on what are defined as tight fitting respirators, with the exception of full face masks.

Qualitative Fit Testing can be used not only as a test method to ensure your employees are properly protected; but also as a very effective way of training them in the correct way of fitting a mask. Dust and half masks commonly fail to do the job they are intended to do because of poor fitting and care by the user.

# GARMENT PRINTING & EMBROIDERY

We offer a range of in-house garment decoration options

We'll work with you to print your garments exactly how you need them and we're dedicated to providing you with a reliable, cost effective and fast service

## HEAT TRANSFER

Printed designs are often best suited for larger and more intricate designs, and tend to behave better when applied to lighter weight materials, such as reflective vests and jackets. The downside is that they tend to have a shorter lifespan than embroidered alternatives.

## EMBROIDERY

Embroidery gives a high quality and long lasting result that is perfect for staple workwear items such as polo-shirts and fleece jackets. Ideal for most standard company logos, embroidery is more durable and can survive multiple washes, often retaining its quality for the lifetime of the garment.

## PROTECTION THAT DOESN'T COST THE EARTH

### 100% recycled polyester

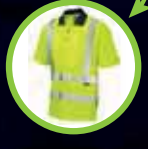

Recycled clothing is chopped into pieces.

Pieces are processed into raw polyester material.

Polymerisation produces ECO CIRCLE™ fibres from Jiaren, Japan.

We take these fibres to create EcoViz® rp – a polyester fabric that fully conforms to ISO 20471.

### 100% recycled polyester

# PPE Recycling

Secure  
Sustainable  
Solutions

CMT has teamed up with one of the UK's leading secure destruction specialists to provide a nationwide service for the secure destruction and recycling of all types of PPE. As well as improving your carbon footprint and protecting the environment, this service can also be used as a secure way to protect your brand. All materials can be collected from your site and taken to a secure facility where it is destroyed by shredding and recycled.

**1** Order your recycling station with one of our sales team using code: **SBRP**

**3** Choose either a 1, 2 or 4 week collection time frame and we will collect the bin and take the items to a secure recycling facility

**2** We deliver your recycling point to your chosen delivery address.

**4** We will provide you with a Certificate of Destruction if required, giving you peace of mind

Footwear

Hearing Protection

Eyewear

Gloves

Helmets

Respiratory Equipment

Workwear

Working in conjunction with our Charity Partners some of the unbranded garments can be sent out to 3rd world countries in support of less fortunate communities

CMT embraces the circular economy concept, whereby we keep resources in use for as long as possible, extract the maximum value from them whilst in use, then recover and regenerate products and materials at the end of each service life.

# ARC FLASH & FLAME RESISTANT CLOTHING

Make the smart choice for Arc Flash and Flame Resistant garments.

100%

**100% INHERENT**

**LIFETIME SEAM GUARANTEE**

ThermSAFE™

**THERMSAFE COMPONENTS**

## Combined Ebt/ATPV Ratings

Garments can be layered to achieve an overall Arc Thermal Performance Value (ATPV) or Energy Break open Threshold (Ebt) rating. For example, thermals may achieve an Ebt of 4.3 Cal/cm<sup>2</sup>, and an outer coverall may achieve an ATPV of 13.6 Cal/cm<sup>2</sup>. However the combination ATPV will be greater than the sum of the two single layers, as the air gap between the two layers affords the wearer additional protection.

# THE IMPORTANCE OF FLAME RETARDANT CLOTHING

## WHAT MAKES FR CLOTHING DIFFERENT?

- Self extinguishes or resists ignition
- Does not melt onto skin
- Provides thermal insulation from heat
- Resists breaking and exposing skin
- Reduces burn injury & increases chance of survival

## THE COST OF A SINGLE BURN INJURY CAN BE MORE THAN THE COST OF AN ENTIRE FLAME RETARDANT CLOTHING PROGRAMME

If workers are in a dangerous environment where heat & flame are present, it's in the employer's responsibility to ensure they are protected.

FR clothing is an investment; not only does it help prevent the potentially huge costs of an incident occurring, it is also better quality & lasts longer than standard clothing, leading to savings in the long term.

## KEY TO SYMBOLS

Waterproof

Anti-static

Breathable

Water repellent

Flame retardant

Arc flash protected

## FLAME RETARDANT EN STANDARDS

### EN ISO 14116

Protective clothing against heat & flame. Limited flame spread materials

### EN ISO 11612

Protection clothing against flame

### EN ISO 13034

Protective clothing against liquid chemicals

### EN 1149-3 / EN 1149-5

Protective clothing with electrostatic properties

### EN 61482-1-2

Protection against electric arc flashes

### EN ISO 11611

For use in welding & allied processes

## Types & Features Of Resins Available

Types	Strength Performance Level	Cracked Concrete	Non Cracked	Indoor Use	Outdoor Use	Wet Application	Low Odour	Use With Rebar	Cure Speed	Suitable for use in all general masonry
<b>Pure Epoxy</b>	Extreme	✓	✓	✓	✓	✓	Solvent Free	✓	Slow	✓
<b>Vinylester</b>	High	✓	✓	✓	✓	✓	Styrene Free	✓	Fast	✓
<b>Epoxy Acrylate</b>	Medium	✗	✓	✓	✓	✓	Styrene Free	✓	Fast	✓
<b>Polyester</b>	Standard	✗	✓	✓	✓	✓	Styrene Free	✗	Fast	✓

### General Information:

- Cracked Concrete - Determined by structural engineer according to fixing application.
- Styrene Free - Low odour. More expensive. Better performance, higher strength. Friendly to environment. A+ Rating VOC content.
- Wet application - Curing time is twice as long and slightly lower performance. All performance testing is done in wet so stated figures are accurate for wet application. Performance in dry will be higher than stated figures.

# CHEMICAL ANCHOR RESINS

## PUR500585 - PUR Epoxy Solvent Free Chemical Anchor Resin 585ml

### Product Description

PUR 500 is a 2 component high strength pure epoxy chemical anchoring resin system. It is designed for deep embedment and large diameter holes due to its zero shrinkage, and longer working times. For diamond drilled holes, with rebar, and in areas of high chemical exposure eg. Seasalt and swimming pools.

Use MET585 for correct applicator

### Features & Benefits

- High bond strength with High load resistance
- Used with all grades of threaded rod and rebar in accordance with TR029
- Ideal for deep embedment installations
- Used in non-cracked and cracked concrete
- Used in dry and wet concrete and also in wood
- Used in flooded holes
- Used for overhead applications
- ETA approved for diamond drilled holes
- Ideal for elevated temperatures - temperature ranges I, II and III
- ETA approved for rebar installations under TR023 and EN1992-1-1:2004 EC2
- Zero shrinkage enables large diameter installations
- **ETA approved for Seismic Loads C2**
- Manual cleaning up to 20mm diameter and embedment depths of 240mm
- Independently tested and approved - anchor life 50 years
- 24 Month shelf life
- A+ Rating VOC content

### Approvals

- ETA Option 1 ETAG 001 for cracked concrete with studs and rebar TR029
- ETA Option 1 ETAG 001 for rebar TR023 : Approved for Seismic Loads C2
- F120 Fire Test report • ICC-ES Approval ESR 3853
- BS6920 for use with potable water WRAS Approved 1309522
- ETA approved in flooded holes, wet and dry concrete
- Tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005)

**MAXCR04 - MAX Vinylester Styrene Free Chemical Anchor Resin 410ml**

**Product Description**

MAX Vinylester is a 2 component high strength 10:1 ratio chemical anchoring resin system. It is designed as a fast curing high strength resin fixing anchor for very high loads and critical and overhead fixings especially in corrosive environments, or damp conditions.

Use MET410 for correct applicator.

**Features & Benefits**

- High bond strength with High load resistance
- Used with all grades of threaded rod and rebar in accordance with TR029
- Used in non-cracked and cracked concrete
- Fast gelling and curing
- Used in dry and wet concrete
- Used in critical or overhead applications
- Used in corrosive environments
- ETA tested based on life of anchor 50 years
- Used for elevated temperatures - temperature ranges I, II and III
- Used for post installed rebar installations under TR029 and TR023
- Low shrinkage enables large diameter installations
- Close edge distance and small spacing
- Manual cleaning up to 20mm diameter and embedment depths of 240mm
- Independently tested and approved

**Approvals**

- ETA Option 7 ETAG 001 for uncracked concrete with studs and rebar TR029
- ETA Option 1 ETAG 001 for cracked concrete with studs
- ETA for post installed Rebar TR023
- Fire approved R180
- Tested to BS6920 for use with potable water
- Tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005).

# CHEMICAL ANCHOR RESINS

## MAXCR03 - MAX Epoxy Acrylate Styrene Free Chemical Anchor Resin 410ml

### Product Description

MAX Epoxy Acrylate is a 2 component high strength 10:1 ratio chemical anchoring resin system. It is designed as a fast curing high strength resin fixing anchor for high loads and medium loads and is particularly advantageous for fixings in damp environments or with chemical exposure.

Use MET410 for correct applicator.

### Features & Benefits

- High bond strength with High load resistance
- Used with all grades of threaded rod and rebar
- Used in concrete and masonry
- Fast gelling and curing
- Used in dry/wet concrete and flooded holes
- Resistance to chemicals and damp conditions
- Close edge distance and small spacing
- European approval for use in masonry with nylon sleeves
- Economical fixing resin
- Extremely versatile
- Styrene free with low odour
- Manual cleaning up to 20mm diameter and embedment depths of 240mm
- Independently tested and approved

### Approvals

- 18/0800 - ETA EAD 330499-00-0601 M8-M24 Threaded Rods 8-25mm Rebar
- 18/0799 - ETA EAD 330076-00-0804 M6-M12 Masonry Installations.
- CE Certified 1404-CPR-3054/3053 - ZAG, Slovenia.
- Tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005).
- WRAS Approved for use with Potable drinking water no. TBA.
- A+ Rating VOC content

### Minimum Curing Time

**MAXCR02 - MAX Polyester Styrene Free Chemical Anchor Resin 300ml**

**MAXCR01 - MAX Polyester Styrene Free Chemical Anchor Resin 410ml**

**Product Description**

MAX Polyester a 2 component high strength 10:1 ratio chemical anchoring resin system. It is designed as a fast curing high strength resin fixing anchor for high loads and medium loads and is particularly advantageous for fixings in masonry due to the European approval and gives excellent value for money. Use MET410 or RS300G for correct applicator.

**Features & Benefits**

- Good bond strength with High load resistance
- Used with all grades of threaded rod
- Used in concrete and masonry
- Fast gelling and curing
- Used in dry and wet conditions
- European approval for use in concrete ETAG001 Option 7
- European approval for use in masonry with nylon sleeves
- Close edge distance and small spacing
- Also suitable as a filler for gap and crack filling
- Economical fixing resin
- Extremely versatile
- Styrene free with low odour
- Close edge distance and small spacing
- Manual cleaning up to 20mm diameter and embedment depths of 240mm
- Independently tested and approved

**Approvals**

- ETA ETAG 001 Option 7 M8-M16
- ETA ETAG 029 for Masonry Size M10
- ITB approved AT-15-6900:2011 - ITB-978/W
- Association Socotec Approval CAZ 0834/1
- Tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005).
- A+ Rating VOC content

## SLEEVE & WEDGE ANCHORS

### Setting Punch for Wedge Anchor

Code	Size	Qty.
<b>DZSP08</b>	M8 setting punch	1
<b>DZSP10</b>	M10 setting punch	1
<b>DZSP12</b>	M12 setting punch	1

### Drop in Wedge Anchors Standard - Non Lipped

- An internally threaded socket anchor for use with bolts or threaded rod of any length. May be set flush or at a depth
- Full expansion can be guaranteed by using the correct shouldered setting punch.
- Suitable for use in concrete

Code	Size	Qty.
<b>DWA830</b>	M8 x 30mm	100
<b>DWA1040</b>	M10 x 40mm	100
<b>DWA1260</b>	M12 x 50mm	50
<b>DWA1665</b>	M16 x 65mm	25

### Through Bolts Zinc Plated & Yellow Passivated

- The through bolt is the ultimate "through fixing" with the hole diameter as the bolt diameter. It is ideal for bolting in place awkward fixtures without the need for marking out, removal or repositioning
- It is a torque controlled anchor suitable for use in concrete over C20/25 strength

Code	Size	Qty.
<b>TB10100</b>	M10 x 100mm	50
<b>TB10120</b>	M10 x 120mm	50
<b>TB12100</b>	M12 x 100mm	20
<b>TB12120</b>	M12 x 120mm	20

### Sleeve Anchors Hex Bolt Zinc Plated and Yellow Passivated

- The Hex Nut sleeve anchor is a thin walled sleeve anchor suitable for use in concrete, stone, brickwork, perforated bricks & dense concrete blocks
- The diagonal slot enables the small gaps to be pulled down & a positive clamping force to be exerted through the fixture

Code	Size	Qty.
<b>SLB10055</b>	M10 x 55mm	50
<b>SLB10100</b>	M10 x 100mm	50
<b>SLB12100</b>	M12 x 100mm	50
<b>SLB12125</b>	M12 x 125mm	25

### Hi-Tensile Sockets

- For use with concrete screw anchors

Code	Size	Qty.
<b>HSKT13</b>	13mm ½" drive	1
<b>HSKT16</b>	16mm ½" drive	1
<b>HSKT17</b>	17mm ½" drive	1
<b>HSKT19</b>	19mm ½" drive	1
<b>HSKT21</b>	21mm ½" drive	1
<b>HSKT24</b>	24mm ½" drive	1
<b>HSKT27</b>	27mm ½" drive	1

## MULTI FIXING BOLTS & THREADED BARS

### Hex Head Concrete Anchor Bolts

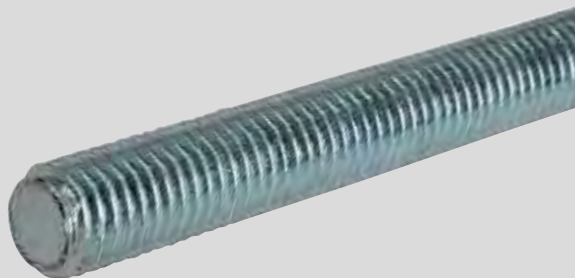

- Heavy duty anchoring into concrete, brick, stone, wood & concrete blocks
- High low parallel threads for ease of insertion & high pull out values
- B point for use in pre-drilled shallow holes

Code	Size	Box qty.	
<b>M0860</b>	M8 x 60mm	100	1
<b>M0875</b>	M8 x 75mm	100	1

## DRILLS, BATTERIES & CHARGERS

### Makita Combi Drill & Impact Driver Kit

- Includes: case, charger, Combi drill, impact driver & 3 x 18v Li-ion batteries

Code

**MAKCOMBOJX1**

1

### Makita Li-ion Rapid Battery Charger

- Suits 3.0Ah, 4.0Ah & 5.0Ah Li-on batteries
- 14.4v - 18v
- Air cooled rapid charge technology

Code

**MAKFC18**

1

### Makita Lithium Li-ion Batteries

- Lightweight & shock absorbing
- Li-ion offers 430% more capacity than traditional Ni-Cad
- Remains cool even in heavy use

Code

**MAKBAT3AH** 3.0Ah

1

**MAKBAT4AH** 4.0Ah

1

### Makita DDF453Z 18v LXT Drill Driver

- 18v Combi drill
- Single sleeve keyless chuck
- Compatible with Li-ion battery
- Body only

Code

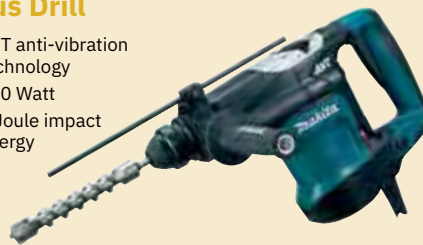

**MAKDDB3**

1

### Makita 110v SDS Plus Drill

- AVT anti-vibration technology
- 850 Watt
- 5 Joule impact energy

Code

**MAKSDSP210C**

1

### Makita DTD152Z 18V LXT Impact Driver

- Compact design impact driver
- Twin LED lights
- Compatible with Li-ion battery
- Body only

Code

**MAKDTD152Z**

1

### Makita SDS Max Rotary Hammer Drill 110v

- AVT anti-vibration technology
- 850 Watt
- 9.4 Joule impact energy

Code

**MAKSDSM511C**

1

### Makita 5903R Circular Saw 235mm - 110v

- Powerful motor
- Dust extraction facility
- Quick release height adjustment
- Suits our MAXTCT-235 range of blades. See page 38

Code

MAK5903R

1

### Makita Dustbag To Suit 5903R Circular Saw

- Cleaner finish & less dust
- Cloth bag for efficient collection

Code

MAKDUSTB903

1

### Makita Reciprocating Saw - 110v

- Variable speed control
- Double insulation
- Tool-less blade change

Code

MAKRECI110V

1

### Makita Orbital Action Jigsaw - 110v

- Quick release tool-less blade change
- Variable electronic speed control
- Sturdy adjustable base for accurate cutting

Code

MAK4350CT-110V

1

### Makita 115mm Angle Grinder - 110v

- Small gear housing for easy handling & manoeuvrability
- Anti-restart function
- Machine bevel gears
- Powerful 720W motor with excellent heat-resistance
- Soft start feature
- Ergonomic 20 degree side grip angle
- Lock-on switch to reduce user fatigue

Code

MAKAG115-110V

1

### Makita 230mm Angle Grinder - 110v

- Compact & lightweight design
- Large trigger switch
- Small gear housing for easy handling & manoeuvrability
- Double insulation

Code

MAKAG230-115

1

**PRESSURE WASHERS & DUST EXTRACTOR**

**MAX High Pressure Washer 165 Bar 240v**

- 165 bar max. pressure
- 2.1kW 240v motor
- 468 litres per hour max. flow rate
- 5m hose length on integrated reel with hose & lance storage
- Built in detergent tank
- Auto stop/start
- Fully adjustable spray nozzle

Code  
MAXPW165

1

**Kärcher Compact Pressure Washer 130 Bar - 240v**

- 420 litres per hour flow rate
- 6m hose length
- Weight: 11.4kg
- 1800 Watt motor

Code  
KARK4

1

**Kärcher Compact Pressure Washer 110 Bar - 240v**

- 360 litres per hour flow rate
- 4m hose length
- Weight: 4kg
- 1400 Watt motor

Code  
KARK2C

1

**M-Class Wet & Dry Dust Extractor 110v**

- 42 litre tank capacity
- Includes hose, adapters, fleece filter bag & disposal bag
- Weight: 16kg
- 1200 Watt motor

## SUBMERSIBLE PUMPS

### Submersible Pumps

For use in civil engineering, construction, landscaping, utilities and flooding emergency applications.

In these environments you need a pump that can handle the unknown subsurface conditions of mud, sludge, sand and other debris without breaking down.

#### SUBPMP1

- Robust & compact contractor pump
- 50mm (2") outlet
- Tough steel base & body

#### SUBPMP2

- Puddle sucker pump able to pump water down to 1m
- 25mm (1") outlet
- Tough steel base & body

SUBPMP1

SUBPMP2

#### Code

<b>SUBPMP1</b>	Submersible abrasive water pump	1
<b>SUBPMP2</b>	Puddle sucker flood water pump	1

#### FR95416

- Electric \*\* pump
- 50mm (2") outlet
- Heavy duty steel cast construction

#### LFH

- Layflat hose for pump discharge
- Available in various sizes

LFH

FR95416

<b>LFH2100</b>	Layflat hose	2" x 100m	1
<b>LFH350</b>	Layflat hose	3" x 50m	1

WET CONCRETE EQUIPMENT

**Belle MiniMix  
150 Cement Mixer**

Built for site durability, these are quality, portable mixers for all small to medium building projects. The number one choice for mixers worldwide

- Compact & portable for easy transportation
- Complete with barrow height swivel & stand
- Extra thick drum with quick mix paddles
- CE compliant with NVR (No Volt Release) safety power switch
- 130 litre drum capacity

Code

**BMM150-230V**

**BMM150-110V**

**PDU Drive  
Unit**

Petrol unit to power flexible drive pokers or submersible pumps. Extra tough large diameter tubular steel frames

- Tough 32mm steel tube engine protection
- Fully welded frame for extra durability
- Drive coupling choices suitable for most makes of poker
- Honda GX160 engine

# HAND TAMPERS & BREAKER STEELS

## Hand Tampers

Choose beam lengths to suit your bay widths, allow a minimum of 0.1m overhang.  
Special size hand tampers made to order, sizes from 4.2 to 7.2m

- Aluminium Beam section, light & easy to use
- Solid handles, improves control, work without bending
- Smooth surfaces, just hose down after use

Code		Beam width mm	Beam height mm	Overall length m	Handle mm	Weight Kg
<b>FR93282</b>	4.2 metre beam length hand tamp c/w handles	28/32	102	4.72	680	20

## CUT-OFF SAWS

### STIHL Petrol Cut-Off Saw 14"

- Compact design and optimised balance for excellent cutting and guide characteristics
- Long-life filter system with cyclone pre-separation minimises maintenance
- Extremely low vibration levels ( $3.9\text{m/s}^2$ )
- For use with 350mm/14" cutting wheel
- Blade not included (see pages 11 - 35)

Code

TS420

### STIHL Petrol Cut-Off Saw 12"

- Compact design and optimised balance for excellent cutting and guide characteristics
- Long-life filter system with cyclone pre-separation minimises maintenance
- Extremely low vibration levels ( $3.9\text{m/s}^2$ )
- For use with 300mm/12" cutting wheel
- Blade not included (see pages 11 - 35)

Code

TS410

### STIHL Battery Cut-Off Saw

- Compact and lightweight design for unrestricted mobility and flexibility
- Completely emission-free for clean work both indoors and outdoors, even in confined spaces
- Starts quickly and easily at the touch of a button
- For use with 230mm/9" cutting wheel
- Blade not included (see pages 11 - 35)

Code

TSA230

### Husqvarna Petrol Cut-Off Saw

- Compact and lightweight machine producing a superb power-to-weight ratio
- Improved digital ignition enables easy starting and efficient combustion with optimized engine timing
- Maintenance-free starter, strong poly-V belt and efficient filter-system ensure long service intervals and minimal downtime
- For use with 300mm/12" cutting wheel
- Blade not included (see pages 11 - 35)

## SafeSmart Mini Mobile Scaffold

- Quick & easy to erect
- Available in the following platform heights: 0.6m, 1.6m, 2.1m, 3.1m, 3.6m, 4.6m, 5.1m & 6.1m
- Width: 0.78m
- Length: 1.8m
- Maximum load per platform: 275kg
- Made from 2" tube
- Based on robust industrial tower specifications
- 1 piece folding toe-board set
- Base can be used alone or increased by a further 3 lifts, giving an extra 6 platform heights (using extra components)
- Complies with BS1139 (Part 3) 1994 BSEN 1004

## STEP LADDERS

### Aluminium Adjustastep Platform

**150kg**  
WEIGHT RATING

- Height adjustable for working off a large safe platform at variable heights
- Platform heights adjusted through each ladder's range in seconds
- Set front and back stiles to varying heights for working on steps or uneven ground
- Handrail allows for 3 points of contact
- Large rubber feet for stable grip and hard wearing
- Rated to 200kg for industrial applications
- One-piece, smooth operation – simply folds flat and locks
- Can be fitted with accessories – tool bucket and full surround handrail

Q SIGNS

Temporary Plastic Road Signs

- The Q Sign is a temporary plastic road sign which is extremely strong & robust which gives it durability & a long life
- Pedestrian & car friendly
- It is easy & safe to handle with no sharp edges & has a simple folding system for quick deployment & storage
- Being an all plastic design the product will not conduct electricity or rust
- The product can be completely recycled & reused at the end of its life
- Specific colour front section available with minimum run
- 750mm: 30 per pallet / 600 x 450mm: 50 per pallet

All temporary traffic signs must be able to withstand three different classes of wind speeds with the use of a ballast. The standard BS 8442:2015 states the three classes as the following:

- Class A: 26.3 m/s (58mph)
- Class B: 17.6 m/s (39mph)
- Class C: 8.7m/s (19mph)

The Q-Sign was tested under strict conditions at the Full Scale Wind Tunnel at Mira to determine at which wind speeds the sign can withstand. Below are the results for the 600mm & 750mm Triangle and Circle Q-Sign.

These results are a guide as to the recommended ballast weight for each Wind Class:

<p>Class C <span style="color: green;">✓ Passed</span></p> <p>Withstood up to 26mph</p> <p>Recommended Ballast Weight: 0Kg</p>	
<p>Class B <span style="color: green;">✓ Passed</span></p> <p>Withstood up to 42mph</p> <p>Recommended Ballast Weight: 10Kg</p>	
<p>Class A <span style="color: green;">✓ Passed</span></p> <p>Withstood up to 59mph</p> <p>Recommended Ballast Weight: 30Kg</p>	

Tested at MIRA
