# OUR DELIVERY PROMISES

**GET IT ANYTIME!**

**Get it Anytime!**  
We can deliver 24 hours a day 7 days a week

Whether it's 2am in Manchester or Saturday evening in central London, we can deliver 24 hours a day, 7 days a week. Charges for this service apply so please discuss with our sales team who will get you the best price possible!

**GET IT NOW!**

**VIP Rapid 2 hour delivery to London & South East - call us for price**

Having teams on site without the equipment needed causes delays - we can deliver all standard catalogue lines with our rapid VIP 2 hour delivery. (If you require VIP delivery outside our area shown, just give us a call). Subject to availability.

**GET IT TODAY!**

**Order by 11am for Same Day Delivery to London & South East at no extra cost!**

Any orders received by 11am for delivery within our same day delivery area will be delivered same day at no extra cost. If you need same day delivery outside our area shown, no problem. Call our team to discuss.

**GET IT TOMORROW AM!**

**Order up to 7pm for next morning delivery nationwide at no extra cost!**

We are a flexible supplier. You can order from 6am to 7pm Monday to Friday. All orders placed by 7pm are delivered next day before midday as standard at no extra cost!\*

**GET IT IN IRELAND!**

**Get it in Ireland! Fast delivery available in Ireland from our Dublin depot**

We deliver your goods to you from our Dublin depot, too. If you require more details on the various services available please speak to our sales team today.

## 24 HOUR COLLECTION

**Collect from our UK depot**

London DA17 6AN

**Collect from our ROI depot**

Dublin D11 VX31

### TRUCK ICON DENOTES BULKY PRODUCT

Delivery charges and extended delivery times may apply. Call us for details.

**\*Here are our simple no-hassle delivery terms**

1. All services offered above are subject to our standard minimum order value of £150. A small order contribution of £8.95 will be added to any orders under £150 unless otherwise agreed with your account manager.
2. All services offered are for standard stock items. We endeavour to stock most items shown in this catalogue but from time to time some items may be out of stock and we will let you know at the time you place your order.
3. Order cutoff time for printed clothing orders is 3pm for next day delivery, and we cannot guarantee same day or VIP delivery on printed clothing. However we will endeavour to fulfil your requirements as quickly as we can.
4. Extra delivery charges may apply for deliveries to IOW, Isle Of Man, Channel Islands and parts of Ireland and Scotland.

Please note that printed and embroidered goods, and any goods ordered as a special are non-returnable under any circumstances and cannot be cancelled once the order has been processed. Standard goods from our catalogue can be returned providing goods are in perfect condition and in the original packaging, which will incur a minimum 15% restocking charge. Return requests must be submitted to our customer services department within 15 working days, and the goods returned to us within 20 working days. If you require us to collect the goods, a minimum collection charge of £15 will apply and will be calculated by location and volume.

All products offered in this catalogue are subject to our terms and conditions of sale. A copy of our terms and conditions is available on request. Due to constant product development we reserve the right to offer a product that differs from one represented in this catalogue. All product details including pricing are subject to change without prior notice. All prices exclude VAT where applicable.

## ABOUT US

CMT Group was born in 2010 with a small, dedicated, passionate team and a condensed product range.

We have grown fast to become one of the largest independent workplace safety suppliers in the UK, leading the industry in exemplary customer care and satisfaction.

From day one, service has been the backbone of CMT's success. Despite the fast-paced and demanding nature

of the industry, our focus has never deviated from customer care first and foremost.

With a carefully developed supply-chain where we manufacture and distribute in-house, we guarantee our clients will have the products they need – fast!

**We believe in offering the right product, at the right price, to the right place, at the right time.**

## OUR PROMISE

### Super-fast Delivery

We don't live in a perfect world; unfortunately, there will always be situations where goods are urgently required at short notice. That's why we provide deliveries same-day and next-morning nationwide as standard. Our own vehicle fleet is ever-expanding, delivering the vast majority of our orders nationwide and offering full flexibility & traceability every step of the journey. No matter where you are, we're just around the corner!

### Competitive Prices

Many wholesalers like to act as a simple middleman, they let brands and manufacturers do the talking. Whilst we proudly maintain strong relationships with affiliate brands, we don't stop there. In the market today, some brands get away with charging ludicrous prices. When we know that our inhouse R&D and manufacturing departments can do a better job, that's what we do - we produce a product that yields a similar or higher quality but for a fraction of the price. We're responsible for the quality of the product and that's how we like it.

### Socially Responsible

At CMT we take our operations very seriously and ensure all aspects of our company are exceptional. Our social responsibility is no different. We continuously quality check supply-chains and re-evaluate our environmental footprint. We use circular supply-chain concepts to offer advice to customers about disposing of products. It would not be right to call ourselves successful without having a strong CSR programme.

## WHY CHOOSE US?

CMT is not just another one of those typical suppliers with good prices and average service. We're a team of committed people who really care and offer the same personal touch every time.

We know how important it is for orders to arrive on time, it matters to us too.

As a well-established independent workplace safety supplier, we understand the importance of a simple and easy buying process. We provide a seamless experience for new and existing customers.

Through our account services we provide ongoing help and support, tailored pricing and bespoke

invoicing solutions – all of which aim at providing a sleek, unrivalled user experience.

We work closely with governing bodies and accomplished manufacturers to promote best practice at all times.

Our manufacturing facilities are always providing our

customers with what's needed at the time, under any circumstance. 'In demand' products can be easily upscaled, new product lines can be developed and alterations and bespoke solutions can be provided.

**Whatever demands are put on us, we deliver.**

## OUR ETHOS

Our ethos is simple – extensive, adaptable product lines at competitive prices, while providing unbeatable service.

CMT's innovative business model was a breakthrough to an industry tired of long lead times and unpredictable deliveries. Our commitment to unrivalled service - on time every time - was a refreshing disruption to the market.

We like to put ourselves in the customer's shoes. We're openminded to new ways of working, we constantly push for feedback to better our service and we're not scared to take bold decisions where necessary.

**Our goal is to make our clients' lives simpler and easier.**

# QUALITY & COMPLIANCE YOU CAN TRUST

## At CMT we set the bar high.

Product quality is paramount. All products must comply with latest regulations and exceed industry best practice - it's imperative. As active members of the BSIF Registered Safety Supplier Scheme, we hold to strict guidelines that ensure high quality and compliance. We don't regard this as optional.

BSIF hold regular audits to ensure there's no compromise on quality or legal standards. As well as this, we manage product approval and certification in-house, giving us total control. Our experienced compliance team ensure all products stay compliant and up to date with current legislation, and can prove this for every item. Where relevant, this includes specification sheets, declarations of conformity and all associated documents.

# OUR NATIONWIDE DELIVERY FLEET

Our own vehicle fleet is constantly expanding, now delivering the vast majority of our orders nationwide and offering full flexibility & traceability every step of the journey. As we've expanded our network, we understand that it is essential that we deliver in a sustainable manner. Our ongoing transition to electric vehicles is a key part of our sustainability plan.

**We ship in bulk and consolidate deliveries whenever possible using specialist computer programmes for route mapping to not only ensure improved delivery times, but reduce our carbon emissions to the minimum.**

Our delivery methods are automatically calculated within our despatch software, and the processes utilised include the use of picking zones, twenty-four hour operations and staggered despatch times, allowing us to efficiently despatch thousands of orders a day.

# ARMED FORCES COVENANT

CMT have committed to honour the Armed Forces Covenant and support the Armed Forces Community. The first duty of Government is the defence of the realm. Our Armed Forces fulfil that responsibility, sacrificing some civilian freedoms, facing danger and, sometimes, suffering serious injury or death as a result of their duty. In return, the whole nation has a moral obligation to the members of the Naval Service, the Army and the Royal Air Force, together with their families. They deserve our respect and support, and fair treatment.

We recognise the value serving personnel, reservists, veterans and military families bring to our business and will strive to support the employment of veterans by seeking to uphold the principles of the Armed Forces Covenant.

# THE 5% CLUB

As a company operating in the UK, we are committed to this country's growth agenda. Against the current backdrop, we are aware of the chronic skills shortage and youth unemployment that the UK faces and acknowledge the importance of developing our people as both a business and social imperative. We aim to play a role in transforming the fortunes of young, talented people in the UK to ensure that the UK retains its reputation for innovation. As a member of The 5% Club, we are pledging to work towards having a minimum 5% of our UK workforce enrolled on formalised apprentice, sponsored student and/or graduate development schemes within the next 5 years.

We believe that by joining The 5% Club we will play a role in Britain's long term prosperity, benefitting both society and Britain's place in the world.

## RE: COVID-19 CRISIS

**We trust you are keeping safe during this difficult time. We wanted to provide an update on how COVID-19 has affected us, and the actions we've taken to ensure the service you receive is impeccable.**

Although procurement of some items has been extremely challenging in recent months, CMT have leveraged our supply network to find alternative high-quality sources where necessary and ensure a consistent and reliable supply to our clients. This has affected costs on certain items but, rest assured, we have and will continue to absorb these increases wherever possible. This means you can expect normal stock levels for all items. Our sales team will keep you personally advised at every point if any further global spikes in demand are experienced that may have an effect on supply.

Despite the economic difficulties, CMT are committed to protecting our workforce, meaning continuity for your team when contacting CMT. This has carried increased costs, including investments in hardware and systems to enable employees to work from home, to ensure service levels are maintained.

We have also significantly expanded our transport team and the area covered by our ever-expanding fleet. This means a further increased service level for the majority of the country and greater flexibility and traceability. This large investment has helped protect your service from negative impacts of third-party couriers, who have been affected by the crisis. As a result, we have been forced to increase our standard delivery charge to £12.95.

Despite international shortages, CMT are committed to playing our part to help and support our community. We've made over 50 donations of essential PPE to local NHS trusts, charities and care homes.

CMT remain in a financially strong position despite the current economic difficulties. Our future as your supply partner is secure. In the current climate, it's easy to forget about our obligations to protect the planet. However, we are continuing to stick to our resolve in ongoing environmental commitments and continuously work to reduce our CO2 footprint.

CMT remain committed to providing the highest level of service to you and your team. We trust you stay safe and well as we this recover from this crisis together and emerge stronger.

Take care, and speak soon!

**TEAM CMT**

# CMT are the first UK manufacturer to produce certified Type II, IIR and 3-Ply face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

## IN SAFETY FOOTWEAR

The Worlds first hi-visibility 360° safety boot, designed and manufactured with innovative technical performance in mind to create, the most comfortable safety boot available today, that can withstand the harshest of working conditions.

### 360° HI VISIBILITY

In daylight, lowlight and at night:  
 EN ISO 20345 S5 HRO CI HI SRA  
 EN ISO 20471  
 RIS-3279-TOM  
 EN 1150

### HYDRO CONTROL

2mm airmesh network wicks saturated air to the exterior of the boot.

### 100% WATERPROOF

Fully waterproof to the very top of the boot.

### THERMAL DEFENCE

A boot for all temperatures including thermal protection down to -40°C.

### CRUSH PROTECTION

Fibre glass non-metallic toe cap: 200J EN 12568

### RESISTANT

Resistant to fuel oil and hydrocarbons.

### ANTI-FATIGUE

Designed for all day wear; supports natural posture and spinal alignment, reducing wear and tear on lumbar vertebrae.

### STABILITY & ANTI-SLIP

Excellent stability on rough/uneven ground. Superb grip on typically hazardous surfaces such as wet rock and wooden sleepers.

### PIERCE PROTECTION

Flexible Kevlar non-metallic penetration resistant midsole: 1100N EN 12568

SAFETY FOOTWEAR

# GLOVE TYPE GUIDE

## European Standards

Implies that the glove comply with the basic requirements laid down by the EC Regulation: Personal Protection Equipment.

### Simple Design (Category I)

For areas of 'minimal risks' where the effects of not wearing a glove are easily reversible or superficial. Such products are self-certified.

### Intermediate Design (Category II)

For areas of 'specific risks' i.e. mechanical risks. Such products would have been EC type tested against European test methods and certified by a notified body.

### Complex Design (Category III)

For areas/application that can seriously or irreversibly harm the health. Such products, in addition to the CE type test, will also have to be either produced under an approved quality system or be tested on an annual basis

## CE Safety Standard Symbols - What to look out for

Each glove has its own individual rating for each standard it qualifies for. Against each product there will be standards symbols where appropriate, clearly displaying the particular safety standards that the glove complies with. This will help you quickly see what you need to know about the glove, helping you shop more efficiently.

### What the numbers represent

### Mechanical Hazards: EN388

- A** - Abrasion resistance **0-4**
- B** - Circular blade-cut resistance **0-5**
- C** - Tear resistance **0-4**
- D** - Puncture resistance **0-4**
- E** - Straight blade cut (TDM) resistance A-F (f)  
Impact resistance P if passes

### Performance Level

An "X" can be shown in place of any of the first 5 digits underneath the pictogram, where the test was either not carried out, not required or not suitable.

### Changes to EC standard EN 388

During 2016 a new version of EN 388, Protection against Mechanical Hazards, was published. It allows products offering higher classifications of cut levels to be identified.

### What has changed

Any sample tested for cut resistance using the existing coup method, which blunts the blade used in the test, will have to be additionally tested using the ISO cut method. There will be 6 cut levels defined on the ISO cut method. Levels A, B and C are new. Level D is of a different value to the level previously quoted as 4. Level E is the same value previously quoted as level 5. Level F is also new and is the highest cut resistance value.

Level A	Level B	Level C	Level D	Level E	Level F
2	5	10	15	22	30

Back of hand protection (impact protection testing) is now included.

- 3** - Means the sample achieved level 3 for abrasion
- 4** - Means the sample achieved level 4 for coup cut
- 4** - Means the sample achieved level 4 for tear
- 3** - Means the sample achieved level 3 puncture
- C** - Means the sample achieved level C for ISO cut which was tested due to blade blunting during the coup test
- P** - Means the sample passes requirements for impact protection

HAND PROTECTION

# SONIS™ EAR DEFENDERS PEAK AT AN UNBEATEN 37 SNR

The Sonis™ range has been stylishly designed with a traffic light colour code for easy identification. Materials have been chosen for both performance and comfort for extended periods of use.

## ✓ PERFORMANCE

The Sonis™ range of ear defenders have been designed by the JSP R&D team. Working with a leading UK acoustic engineering research facility they have developed an ear defender range that peaks at an unbeaten 37 SNR.

## ✓ COMFORT

The over-moulded headband has a built in comfort area with ventilation. The headband force and the cushion surface area work together to provide optimum cushion pressure and comfort.

## ✓ CUSTOMISATION

Sonis™ cups can be coloured to meet a corporate identity. They can also be printed with a company logo for improved brand recognition and to discourage theft. MOQ's apply.

## ✓ ADJUSTABLE STEEL ARMS

To facilitate even distribution of pressure the wearer can tilt and adjust the position of the earcup for optimum comfort and fit.

## ✓ HYGIENIC

The headband is manufactured from TPE, making it easy to wipe clean. The sealing rings are easy to replace. Hygiene kits are available for each model.

## ✓ EXTRA VISIBILITY

The Sonis™ range is available with extra visibility cups and a reflective headband for added low light protection.

RESPIRATORY EQUIPMENT

- IDENTIFY THE HAZARDS** - dust, metal fume, gas, vapour.
- ASSESS THE HAZARDS** - measure the hazard level/other protection - skin & eye.
- SELECT THE RESPIRATOR** - disposable, half mask, full face, powdered airline.

- HAZARDS:**
- 1) DUST:**  
Formed by the breaking down of solid materials, the smaller the dust particles the greater the hazard presents.
  - 2) MISTS:**  
Formed by the processes that involve atomisation (such as spraying), mists consist of tiny droplets.
  - 3) FUMES:**  
Formed by the vapourisation of a solid material by the application of extreme heat. Extremely fine particles are created as the vapour cools and condenses.
  - 4) VAPOURS:**  
A gaseous state formed by evaporation from substances that are normally either solid or liquid at room temperature. A fume may form as vapour condenses.
  - 5) GASES:**  
An air-like substance at room temperature that has the ability to diffuse and spread quickly and travel far.

**EUROPEAN STANDARDS**  
Our respirators are tested to the relevant European Standards. All respirators carry the CE mark plus the European Standard and performance category markings:

- EN149** – Filtering facepiece and particulate respirators
- EN405** – Valved filtering half mask respirators for gases and/or particulates
- EN140** – Half mask facepieces
- EN136** – Full facepieces
- EN137** – Self-contained open-circuit compressed air breathing apparatus
- EN143** – Particulate filters
- EN146** – Powered Respirators – Hoods & Helmets
- EN147** – Powered – Full Face Masks
- EN270** – Heavy Duty Supplied Air
- EN402** – Escape Apparatus. SCBA with full face mask or mouthpiece assembly
- EN529** – Respiratory selection, use and care

- EN1146** – Compressed air escape apparatus with hood
- EN1835** – Light Duty Supplied Air
- EN12941** – Powered Respirators – Hoods and Helmets
- EN12942** – Powered Respirator Full Face Masks
- EN14387** – Gas & vapour filters

**TAKE CARE AND PROTECT YOUR AIR**

Read the information on this page to help you choose the right breathing protection.

# CMT are the first UK manufacturer to produce certified Type II, IIR and 3-Ply face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

**Type II, IIR and 3-Ply face masks are available in a range of pack sizes and packaging options, including own branding**

Our focus is on helping you in guaranteeing a consistent, secure supply of UK manufactured masks at more competitive rates than offshore-sourced products.

**Benefits of ordering through an accredited UK supplier rather than importing:**

- Removes any risk of inconsistent supply
- Save weeks of time on delivery
- Deal with a professional UK team
- Avoid overstocking with reduced MOQs
- Supports UK manufacturing
- Avoid exchange rate fluctuations
- Supports our economy

## Specification for Type II & IIR

These high-quality products are independently tested and accredited by ISO 17025 accredited laboratories, in line with all elements of the following international standards. Test reports and other documentation are available on request.

<b>Full product name:</b>	Disposable Non-Sterile Medical Face Masks Type IIR 3-Ply
<b>Product size:</b>	180mm x 90mm (ear loops = 180mm)
<b>Product Weight:</b>	2 grams
<b>Product Material:</b>	Inner layer: White spunbonded non-woven polypropylene 25g/sqm
<b>Outer layer:</b>	Blue spunbonded non-woven polypropylene 25g/sqm
<b>Filter media:</b>	Meltblown white non-woven polypropylene 25g/sqm, 0.35mm thickness
<b>Elastic strap:</b>	2mm thick white elastic – latex free
<b>Nose piece:</b>	3mm thick metal wire encased in white plastic, 165mm length
<b>Product Performance:</b>	EN14683:2019 Bacterial Filtration Efficiency (BFE) >= 99% Differential Pressure <= 10.2 Pa/cm2 Synthetic Blood Resistance: PASS (2R only) Microbial Contamination/Bioburden <= 23 C.F.U./g
<b>Product Colour:</b>	Blue / White
<b>Packaging Size:</b>	70mm x 200mm x 100mm
<b>Packaging Units:</b>	5, 10 or 50 per inner box
<b>Manufacturer:</b>	CMT Equipment LTD – Trident Works, Mulberry Way, Belvedere, London, DA17 6AN
<b>Storage Conditions:</b>	Store in a well-ventilated room where the relative humidity does not exceed 80%. Avoid high temperatures, keep away from fire and flammable materials.
<b>Shelf Life:</b>	5 years in original packaging
<b>Handling:</b>	Keep in original packaging until use – do not reuse. Replace when damp or damaged
<b>Conformities:</b>	EN 14683:2019; CE Marked; Registered with MHRA. Produced in accordance with MDR 2017/745. Class I medical device (non-sterile)
<b>Dermatological Tolerance:</b>	No known intolerance, does not contain latex
<b>Conditions:</b>	Non-sterile

# PPE Recycling

Secure  
Sustainable  
Solutions

CMT has teamed up with one of the UK's leading secure destruction specialists to provide a nationwide service for the secure destruction and recycling of all types of PPE. As well as improving your carbon footprint and protecting the environment, this service can also be used as a secure way to protect your brand. All materials can be collected from your site and taken to a secure facility where it is destroyed by shredding and recycled.

**1** Order your recycling station with one of our sales team using code: **SBRP**

**3** Choose either a 1, 2 or 4 week collection time frame and we will collect the bin and take the items to a secure recycling facility

**2** We deliver your recycling point to your chosen delivery address.

**4** We will provide you with a Certificate of Destruction if required, giving you peace of mind

Working in conjunction with our Charity Partners some of the unbranded garments can be sent out to 3rd world countries in support of less fortunate communities

CMT embraces the circular economy concept, whereby we keep resources in use for as long as possible, extract the maximum value from them whilst in use, then recover and regenerate products and materials at the end of each service life.

## FACE FIT TESTING

Qualitative Fit Testing can be used on what are defined as tight fitting respirators, with the exception of full face masks.

Qualitative Fit Testing can be used not only as a test method to ensure your employees are properly protected; but also as a very effective way of training them in the correct way of fitting a mask. Dust and half masks commonly fail to do the job they are intended to do because of poor fitting and care by the user.

**GARMENT PRINTING & EMBROIDERY**

We offer a range of in-house garment decoration options

We'll work with you to print your garments exactly how you need them and we're dedicated to providing you with a reliable, cost effective and fast service

**HEAT TRANSFER**

Printed designs are often best suited for larger and more intricate designs, and tend to behave better when applied to lighter weight materials, such as reflective vests and jackets. The downside is that they tend to have a shorter lifespan than embroidered alternatives.

**EMBROIDERY**

Embroidery gives a high quality and long lasting result that is perfect for staple workwear items such as polo-shirts and fleece jackets. Ideal for most standard company logos, embroidery is more durable and can survive multiple washes, often retaining its quality for the lifetime of the garment.

# PPE Recycling

Secure Sustainable Solutions

CMT has teamed up with one of the UK's leading secure destruction specialists to provide a nationwide service for the secure destruction and recycling of all types of PPE. As well as improving your carbon footprint and protecting the environment, this service can also be used as a secure way to protect your brand. All materials can be collected from your site and taken to a secure facility where it is destroyed by shredding and recycled.

**1** Order your recycling station with one of our sales team using code: **SBRP**

**2** We deliver your recycling point to your chosen delivery address.

**3** Choose either a 1, 2 or 4 week collection time frame and we will collect the bin and take the items to a secure recycling facility

Workwear

Working in conjunction with our Charity Partners some of the unbranded garments can be sent out to 3rd world countries in support of less fortunate communities

CMT embraces the circular economy concept, whereby we keep resources in use for as long as possible, extract the maximum value from them whilst in use, then recover and regenerate products and materials at the end of each service life.

# ARC FLASH & FLAME RESISTANT CLOTHING

Make the smart choice for Arc Flash and Flame Resistant garments.

- 100% INHERENT**
- LIFETIME SEAM GUARANTEE**
- THERMSAFE COMPONENTS**

## Combined Ebt/ATPV Ratings

Garments can be layered to achieve an overall Arc Thermal Performance Value (ATPV) or Energy Break open Threshold (Ebt) rating. For example, thermals may achieve an Ebt of 4.3 Cal/cm<sup>2</sup>, and an outer overall may achieve an APTV of 13.6Cal/cm<sup>2</sup>. However the combination APTV will be greater than the sum of the two single layers, as the air gap between the two layers affords the wearer additional protection.

## THE IMPORTANCE OF FLAME RETARDANT CLOTHING

### WHAT MAKES FR CLOTHING DIFFERENT?

- Self extinguishes or resists ignition
- Does not melt onto skin
- Provides thermal insulation from heat
- Resists breaking and exposing skin
- Reduces burn injury & increases chance of survival

### THE COST OF A SINGLE BURN INJURY CAN BE MORE THAN THE COST OF AN ENTIRE FLAME RETARDANT CLOTHING PROGRAMME

If workers are in a dangerous environment where heat & flame are present, it's in the employer's responsibility to ensure they are protected.

FR clothing is an investment; not only does it help prevent the potentially huge costs of an incident occurring, it is also better quality & lasts longer than standard clothing, leading to savings in the long term.

### KEY TO SYMBOLS

- Waterproof
- Anti-static
- Breathable
- Water repellent
- Flame retardant
- Arc flash protected

### FLAME RETARDANT EN STANDARDS

- EN ISO 14116**  
Protective clothing against heat & flame. Limited flame spread materials
- EN ISO 11612**  
Protection clothing against flame
- EN ISO 13034**  
Protective clothing against liquid chemicals
- EN 1149-3 / EN 1149-5**  
Protective clothing with electrostatic properties
- EN 61482-1-2**  
Protection against electric arc flashes
- EN ISO 11611**  
For use in welding & allied processes
- EN ISO 13506**  
Manikin test

### EN STANDARDS FOR SAFETY WORKWEAR GUIDE

- EN ISO 20471**  
High visibility clothing
- EN ISO 11611**  
Protection against infective agents
- EN ISO 1073-2**  
Protection against radioactive contaminants
- ISO EN 13982**  
Protection against solid particulates
- EN ISO 343**  
Breathable, wind & waterproof clothing
- EN ISO 342**  
Certified Protection against cold
- UV Standard 801**  
Protection from UV rays

# YOUR BEST FIGHTING CHANCE

Are you prepared for Cardiac Emergencies?

Lifesaving, **Pure and Simple**

**HEARTSINE® DEFIBRILLATORS**  
The perfect blend of Quality and Price

## The best things in life are often simple.

That's true for the best lifesaving technology as well. The simple truth is that SCA strikes from 7 million people a year worldwide with no warning. There's little time to react and even less time to think. So your AED solution must be close at hand, reliable and effective.

**Defibrillators Save Precious Minutes**  
Because every second counts

Every minute that passes without defibrillation reduces survival rate by 7–10%  
**Increase The Chance**

## DID YOU KNOW?

13% of workplace fatalities are from Sudden Cardiac Arrest (SCA)

HEALTHCARE | WE MAKE IT BETTER

# HEARTSINE DEFIBRILLATOR PRICING

**HeartSine Samaritan 360P**

**Fully Automatic Defibrillator**  
with CPR Metronome,  
visual and voice prompts

**HeartSine Samaritan 500P**

**Semi-Automatic Defibrillator**  
with CPR Metronome,  
visual and voice prompts and patient  
specific CPR feedback

## INCREASE THE CHANCE

### Your Complete Site Package

The Defibrillator + Carry Case + Internal Wall Cabinet + AED Prep Kit + Signage

• EASY TO USE • FASTEST TIME TO FIRST SHOCK • HIGHEST INDUSTRY IP RATING OF IP56  
DELIVERS A LIFESAVING SHOCK IN MORE CASES THAN ANY OTHER DEFIBRILLATOR.

## CLINICAL WASTE & SHARPS DISPOSAL

### AEROHAZARD® SHARPS & MEDICAL WASTE PRODUCTS

A wide range of waste disposal containers which are designed to meet user's demands for strength, simplicity & value. This range offers outstanding protection against penetrating sharps & leaking fluids due to its rigid polypropylene construction & wall thickness. Assembly is fast & permanent; simply press the lid around the rim of the container until it snaps into place. A simple closure mechanism allows single handed disposal & most items have a temporary & permanent closure feature.

#### Single Sharps Needle Disposal System

Code  **HS51060** 10

#### Sharps Disposal Kit

- Contains 5 applications

Code  **HS51062** 10

#### Sharpsafe Bins

- Rigid containers for the safe disposal of contaminated sharps

Smart Pollution Prevention Products

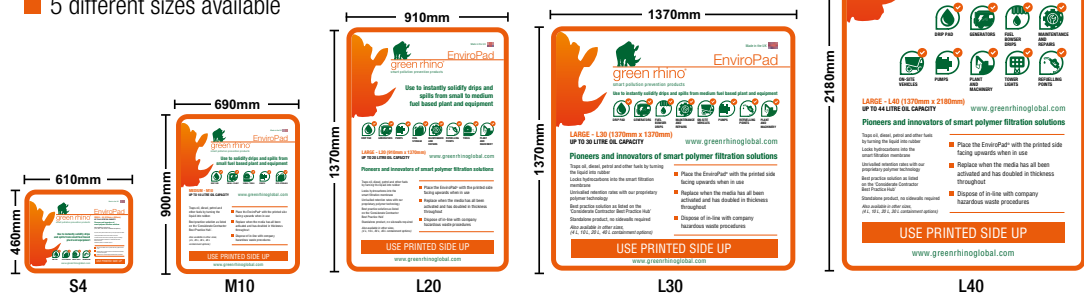

# EnviroPad<sup>®</sup>

## The ultimate product for drips and spills

The EnviroPad<sup>®</sup> captures and solidifies oil, diesel and other hydrocarbons. Unlike typical products which work like a sponge and are prone to leak, EnviroPad<sup>®</sup> uses a proprietary blend of polymers which immediately starts to turn the spill solid, permanently capturing it within the filtration membrane. This eliminates unwanted leaks, reduces waste and importantly saves times and money.

- Best oil retention rates on the market, up to 44 litres
- Unrivalled cost per litre compared to the marketplace
- Usage instructions printed on the EnviroPad<sup>®</sup>
- Clean, safe, reliable pollution prevention
- 5 different sizes available

<b>EnviroPad<sup>®</sup> S4 Small</b> Up to 4.5L	<b>EnviroPad<sup>®</sup> M10 Medium</b> Up to 10.5L	<b>EnviroPad<sup>®</sup> L20 Large</b> Up to 20.2L	<b>EnviroPad<sup>®</sup> L30 Large</b> Up to 30.4L	<b>EnviroPad<sup>®</sup> L40 Large</b> Up to 44.3L
---	--	---	---	---

## OIL RETENTION MATS & DRAIN FILTERS

ENVIRONMENTAL

### EnviroPad Oil Retention Mat

- Turns oil into rubber for highly efficient spill containment
- Solidifies the spill so contaminants cannot leak out
- Clean, safe, reliable pollution prevention
- Avoid fines and prosecution from environmental regulators

Code	Capacity	Dimensions
<b>GRR520201EPAD</b>	Small - S4	610mm x 460mm / up to 4.5L oil
<b>GRR520210EPAD</b>	Medium - M10	900mm x 690mm / up to 10.5L oil
<b>GRR520105EPAD</b>	Large - L40	2180mm x 1370mm / up to 44.3L oil

### EnviroHorn Drain Filter

- Eliminate cost & time consuming process of regular drain unblocking
- Quick & effective pollution solution
- Reduces site down time

Code	Capacity	Dimensions
<b>GRR100001EHRN</b>	250mm dia. x 400mm deep	capacity - 1L oil, 19kg sediment
<b>GRR100101EHRN</b>	250mm dia. x 400mm deep	capacity - 21kg sediment

## INTRODUCING AQUAPAX WATER

Sealed and protected from light and air, in wholly recyclable, safely reusable, sustainably produced, non-leaching paper cartons, means Aquapax elevates itself above the ongoing war on plastic: it makes Aquapax unique in the market.

Most of our wholly recyclable carton material is paperboard made from trees, sourced from sustainable FSC Certified forests. Our 500ml cap is made from sugar cane, a natural plant that just grows back!

Multi-award winning Aquapax is also one of the purest waters in the world and the ever-increasing consumer demand for convenient, pure, additive-free, portable drinking water, is clear! Hence our passion for Aquapax.

ONE OF THE PUREST WATERS IN THE WORLD.

### Aquapax Spring Water Cartons

- The recyclable alternative to plastic bottles
- Packs of 12
- 500ml

NEW

Code  
AQUA50012

## THINK INSIDE THE BOX

AQUAPAX CARTONS HAVE A LOWER CLIMATE IMPACT COMPARED TO ALL ALTERNATIVE FORMATS

A

Sustainable

AQUAPAX carton strength is from renewable FSC timber sources

B

Plant Based

By weight, AQUAPAX contains at least 62% plant-based material

C

Recyclable

The whole AQUAPAX carton can be recycled into useful new products

## ECO CUTLERY & CUPS

### Wooden Cutlery

- Eco friendly alternative to plastic

# SAFETY SIGNS

Fire Exit & Emergency Signs **210-211**

Emergency Signs **212**

Site Information Signs **213**

Site Signage **214**

General Notices **215**

Mandatory Signs **216-217**

Prohibition Signs **218-219**

Traffic Information Signs **220**

General & Site Signs **221-222**

**High visibility jackets must be worn**

**Report all accidents immediately**

**Protective footwear must be worn**

**Safety helmets are provided for your safety and must be worn**

**ADD YOUR LOGO TO ANY OF THESE SIGNS**  
(additional charges may apply)

**ALL YOUR BESPOKE CONSTRUCTION SIGNS PRINTED IN-HOUSE FOR FAST DELIVERY!**

Our sign printing machines complement our printed clothing and embroidery services & enable us to provide a complete service for all your sign requirements

HERE'S A FEW EXAMPLES OF WHAT WE CAN DO...

- Metal road signs
- Scaffold protection mesh & banners
- Labels & stickers
- Safety signs, safety boards & posters
- Printed hoardings & site boards
- ...and much more!

**CREATE YOUR BESPOKE SIGN**  
in three simple steps

**1** Select your required size:

A4	A3	A2	A1	200mm x 600mm	280mm x 90mm	450mm x 150mm
----	----	----	----	---------------	--------------	---------------

**2** Add all required elements  
Include any text, logos or other graphics you need.

Prohibited

Warning

Mandatory

**3** Call us on **020 8311 1144**  
And quote one of the following codes (depending on the size):

BS-PVC-A4 (A4)	BS-PVC-A3 (A3)	BS-PVC-A2 (A2)	BS-PVC-A1 (A1)
BS-PVC-2060 (200 x 600mm)	BS-PVC-289 (280 x 90mm)	BS-PVC-4515 (450 x 150mm)	

**BESPOKE SIGNAGE PRINTED IN-HOUSE FOR NEXT DAY DELIVERY**

Choose your layout & we'll do the rest

- METAL ROAD SIGNS
- CORREX SAFETY SIGNS
- PLASTIC SAFETY SIGNS
- PVC SITE SIGNAGE
- CORRUGATED PVC SIGNS
- MAGNETIC VINYL

SafeSmart Mini Mobile Scaffold

- Quick & easy to erect
- Available in the following platform heights: 0.6m, 1.6m, 2.1m, 3.1m, 3.6m, 4.6m, 5.1m & 6.1m
- Width: 0.78m
- Length: 1.8m
- Maximum load per platform: 275kg
- Made from 2" tube
- Based on robust industrial tower specifications
- 1 piece folding toe-board set
- Base can be used alone or increased by a further 3 lifts, giving an extra 6 platform heights (using extra components)
- Complies with BS1139 (Part 3) 1994 BSEN 1004

## SUPER MAINTENANCE PODIUM

### SafeSmart Super Maintenance Podium

- Engineer's approval, SWL rating & serial number on certification plate
- Tough build with 82 x 50mm marine grade aluminium RHS - won't corrode or weaken with age
- Perforated & swaged deck for superior traction in wet & greasy conditions
- Large solid rubber wheels for ease of movement
- 7 - 11 step models come with retro-fittable outriggers as standard
- Comes with operator safety manual & assembly instructions
- BS EN 131-7: 2013
- Option for front gate access

STEP LADDERS

Aluminium Adjustastep Platform

- Height adjustable for working off a large safe platform at variable heights
- Platform heights adjusted through each ladder's range in seconds
- Set front and back stiles to varying heights for working on steps or uneven ground
- Handrail allows for 3 points of contact
- Large rubber feet for stable grip and hand wearing
- Rated to 200kg for industrial applications
- One-piece, smooth operation – simply folds flat and locks
- Can be fitted with accessories – tool bucket and full surround handrail

# CMT are the first UK manufacturer to produce certified Type II, IIR and 3-Ply face masks

**No.1 UK  
Manufacturer  
of Certified  
Face Masks**

Our extensive knowledge of personal protective equipment and our commitment to leading innovations in safety, led us to start manufacturing surgical and standard use masks. Producing millions of masks per week with constant expansion to accommodate demand.

Masks are fully certified to EN14638:2019, with official certification and test reports in English - making it clear and simple to process through your own compliance systems.

Production facilities are based at the same complex as our head office, with over 400,000 sq. ft. of manufacturing and warehousing. Get in touch to book a visit, and see the manufacturing process from raw material to finished masks with your own eyes.

**Type II, IIR and 3-Ply face masks are available in a range of pack sizes and packaging options, including own branding**

Our focus is on helping you in guaranteeing a consistent, secure supply of UK manufactured masks at more competitive rates than offshore-sourced products.

**Benefits of ordering through an accredited UK supplier rather than importing:**

- Removes any risk of inconsistent supply
- Save weeks of time on delivery
- Deal with a professional UK team
- Avoid overstocking with reduced MOQs
- Supports UK manufacturing
- Avoid exchange rate fluctuations
- Supports our economy
